

The Weather
Oakland, vicinity, Santa Clara, Sacramento and San Joaquin valleys. Fair, continued pleasant weather tonight and tomorrow; light northerly winds.

WAS GUSHE SHOT DOWN IN QUARREL WITH FOE?

Fatal Duel May Not Have Been Battle With Armed Desperado, but Grudge Fight

POLICE UNABLE TO ESTABLISH ROBBERY

Men Met by Design, and Ready for Conflict, Is Theory Now Laid Before Authorities

Was Patrolman Robert F. Gushe the victim of a "thug" whom he attempted to arrest, or was he shot down in a fight with a personal enemy whom he had met by appointment on the night of his death?

Is there a woman in the case, possibly the wife of the murderer, who is being sought in vain by the police? These questions are being asked today, as a result of the fact that the circumstances surrounding the shooting do not entirely bear out the first theory that the patrolman was shot down in cold blood by a desperado who he had met to question last Saturday night.

The police refuse to discuss this new angle to the case, and will not disclose the information they have obtained, which leads to the belief that the hold-up theory first advanced by the untouchable ones. Inspectors St. Clair Hodgkins and Joseph Havens are working on clues which they decline to talk about, and Captain of Inspectors W. J. Petersen maintains a stubborn silence, reiterating when questioned, the brief statement that there is "nothing new" in the Gushe case.

Gossip among fellow patrolmen is throwing a new light on the situation, and leading strongly to the belief that Gushe knew the man who caused his death, and that the shooting was the result of a personal quarrel. This explanation of the affair is given color by the fact that nothing of the nature of a hold-up or robbery has been verified, although rumors, as having taken place in the neighborhood of the shooting, it has even been declared that Gushe and the man described as his murderer had been seen together prior to the shooting.

Gushe was patrolling his beat Saturday night just a few minutes before the shooting, which occurred on Twelfth and Clay streets. Nobody saw any commotion which would lead the patrolman to the belief that a crime had been committed. Three employees of the Orpheum saw Gushe and a man

Identify Woman Killed by Train

Mrs. Andrea Johnson Is Slain on Rails

After a search of twenty-four hours Edwin Johnson, 2123 Grove street, today identified the body of the aged woman who died yesterday afternoon from injuries received when she was run down by a Southern Pacific electric train at Stanford avenue and Los Angeles street, as that of his mother, Mrs. Andrea Johnson, 995 Grace street.

The aged woman had left her home early yesterday afternoon to go on a shopping tour. She was heard of hearing and at Los Angeles street and Stanford avenue did not hear an approaching train. Walking directly before the first coach, she was thrown under the forward trucks and her body dragged a distance of several feet before the train was brought to a stop.

Members of the crew placed her unconscious body aboard the train and took it to the Sixteenth street depot, where the ambulance of the Central police station was waiting. Mrs. Johnson was rushed to the Emergency hospital, where it was found necessary to amputate one of her legs. She died on the operating table, saying just before her death that her name was Johnson.

Attaches of the coroner's office worked far into the night last night seeking to identify the woman, but without avail. When she did not return to her home late last night her son began a search for her, inquiring at all hospitals. Late this morning he identified the body at the morgue as that of his mother.

Mrs. Johnson was a widow, 73 years old and had been a resident of Oakland for more than thirty years. She was a native of Norway. Arrangements for the funeral have not yet been made. An inquest will be held.

Navy Plane Wrecked at Mardi Gras Fete

MOBILE, Ala., March 7.—One of the naval hydroaeroplanes at the Mardi Gras here was hurled against a schooner anchored in the Mobile harbor today and was demolished. The pilot, Lieutenant E. C. McDonnell of the naval aviation corps, escaped without injury.

ACCUSES BRIDE OF INCENDIARY PLOT

MARY MUNDER

Politicians Look for Motive in Recall

Speculation Surrounds Move to Start Campaign

Political wisecracks wandered through the corridors of the city hall today asking one question over and over again. The oft-repeated question was this: "Who is behind the recall, and where is the money coming from?"

It was generally stated that the jitney-bus controversy is merely being used as a cloak for the political factions involved in the affair. Rumors that the men who have filed the declarations of intention to recall three commissioners and the mayor will center their activities in getting signatures on the mayor and Commissioner Edwards were heard from many quarters, are given some credence in the mayor's office.

The newly organized City and County Taxpayers' League, of which E. L. Arnest is president, will hold a meeting tomorrow night to discuss the new situation, with a view to accepting the jitney bus drivers' fight as their own so far as Mayor Davis is concerned. They will discuss the question as to whether this is the opportune time to start their fight for the recall of the mayor, and will also discuss the question of a candidate to run against Mayor Davis.

BILGER'S NAME USED.

The names of Frank W. Bilger, who was Davis' opponent at the last municipal election; Professor W. E. Gibson, who was one of the candidates for mayor at the primaries; and George W. Hatch were bandied about among those discussing politics today as possible candidates to oppose Mayor Davis. It is not known that any one of these men has given his consent to the use of his name, and

Asked Building; Got---One Room

Richmond's Hopes Are Not Realized

After having asked for a new Santa Fe railroad station and after having asked for the State Railroad Commission, the city of Richmond is to get one room.

Visions of a new depot, some of which have materialized in beautiful pictures on publicity literature, have vanished with the announcement that the commission does not feel justified in ordering the railroad to spend the \$10,000 that would have been needed.

Richmond's claim was that the present building is unsightly and inadequate. The commission has indicated that the building is inadequate, but it is not to be used as a ladies' waiting room.

Son of Attorney Is Arrested as "Masher"

George E. De Golla Jr., son of the well known attorney, was arrested today on a seventh street local train by Railroad Officer Butler on a charge of disturbing the peace. According to Butler, De Golla attempted to make advances to a young woman who was in the seat in front of him. De Golla was taken handcuffed to the city prison by Butler and was released on bail. Butler did not ascertain the name of the young woman, who complained that De Golla had annoyed her. The case will come up in the police court tomorrow morning.

"De Golla attempted to flirt with this girl," Railroad Officer Butler told the police, "and when he received no encouragement he took the seat behind her and put his hand on her shoulder. She drew away and he still insisted on talking with her. The girl asked for our protection and we placed the young man under arrest."

Eshleman's Successor Not Chosen by Johnson

SACRAMENTO, March 7.—"I have not appointed a lieutenant governor and shall not for some time," declared Governor Hiram W. Johnson today when asked about the report that Marshall C. Stinson of Los Angeles had been designated.

POLICE GET CONFESSION OF HUSBAND

Her Family Used Arson to Get Money, He Alleges

Insurance Funds Would Buy Farm, Was Hoped

A strange confession in which the charge is made that his wife and his wife's family were connected with numerous suspicious fires and that the woman planned the alleged incendiary fire in Florida street, February 17, which resulted in his arrest and that of his wife, has been made by August Munder, a farmer, to the detectives who have been working on the case.

Munder and his bride of four months, Mary Munder, formerly Miss Mary Groman of Los Angeles, have been held in detention for several days. Mrs. Munder's brother, Reinhardt Munder, was also detained pending an investigation, but was released today when the detectives were unable to connect him with any offenses either here or in Los Angeles.

NO COMPLAINTS ISSUED.

Although the police have been working on the case for three weeks, no complaints had been issued against Munder and his wife today. It was stated yesterday that they would be charged, as they had been held in detention for several days. The complaints were not issued, however. It was said that they would be issued late today or tomorrow morning.

Inspector William F. Kyle, who is in charge of the Charles Lester Burleigh arson syndicate, and Inspector John Dutton worked on the present case, and last night obtained a long confession from Munder. Munder acknowledged his own connection with the incendiary fire in the house which he and his wife occupied at 320 Florida street, and implicated his wife, asserting that she had planned the affair, the police say.

HIS WIFE IS SILENT.

Mrs. Munder preserved a stubborn silence, and no questioning could break through her refusal to talk about the affair. She denied that she had induced her husband to go to her on the plan to set fire to the house and collect insurance of \$1100 on some worthless furniture, and would tell nothing concerning the alleged purchase of a quantity of coal oil with which rags and shavings were saturated. It is said, to burn down the house.

Munder, in his confession, told the detectives that the members of the family of his wife had made a practice of planning incendiary fires in Oregon, and that they collected insurance and purchased farm lands in Canada. When investigations were started by the authorities, he confessed that his wife told him that the family went across the boundary line to Canada, and remained beyond the jurisdiction of the police for a time.

Munder was a farmer, and he and his wife wished to purchase land in British Columbia.

"We thought we could raise some insurance money easy and so get the land," Munder told the police. "We insured the furniture with the Phoenix Fire Insurance Company and then burned the house."

PROOFS DELAY THEM.

The police got on the trail of Munder and his wife within a few days after the fire, but did not attempt to make arrests. Several ineffectual attempts to collect the insurance were made, but the couple were unable to produce satisfactory proofs of loss. The police kept them under surveillance all the time, and last week, when they had gathered considerable evidence, placed them under arrest and incarcerated in the city jail.

The house which is alleged to have been set afire was completely destroyed. It belongs to Henry Z. Jones, 488 Ninth street.

CHORUS GIRL AS BRIDE OF HER? OH NO!

Not if Parents Can Help Will Joseph Wed Dancer

They Speed Eastward to Send Son Back to Harvard

In the knowledge that their son, Joseph Moody, until recently a student at the University of California, is in New York seeking a marriage license that he might marry a chorus girl, Marion Parkes of the Blue Paradise Company, Mr. and Mrs. Frederick S. Moody of San Francisco are frantically sending telegrams east to prevent a ceremony.

The only grounds given to the excited parents for the hope that the young man is still single is in the fact that the first application for a license by the pair was refused. Young Moody could not answer all of the questions put him by the clerk. As the college man and comic opera girl left the New York bureau, Moody declared stoutly that he would try again and that he would have a license before long.

WENT EAST RECENTLY.

The parents of the young man here are heart-broken over the news. They can not understand where or how he met the girl. He has only been in the east three weeks, having gone to Harvard for the spring semester from the University of California to complete his course in chemistry.

The first intimation the parents had that young Moody was not devoting himself exclusively to his studies was a wire from B. H. Holman of Lynbrook, Long Island, yesterday. The wire stated that their son was not at Harvard, but in New York, preparing to marry a chorus girl, and asking if there was anything they desired him to do to prevent the marriage.

The father immediately wired Holman to have the boy's aunt, Mrs. McManigal, widow of the late Dr. McManigal here, now residing at Hotel Gotham in New York, to take charge of the son. It is only two months ago, 21, said the father today, "and is in no position financially or otherwise to marry and provide for a wife. We want him to complete his university course, naturally, and make a start in his life's work."

Last evening Corbett Moody, a brother of the Harvard man, also a Harvard graduate, asked Chief of Police D. A. White if there was nothing the police could do to prevent the New York marriage. Chief White declined the request, saying that the police have no authority to interfere with the marriage of a citizen.

WEALTHY FAMILY.

The Moody family is among the most prominent families socially. Mrs. Joseph Moody, the grandmother, is a well known social figure, and a large fortune was inherited from the Corbett family, of which she is a member.

Frederick Moody, the father, is manager of the Moody estate, with offices in the Kohli building.

The morning he talked over the long distance telephone one George Holman, who sent him the first warning of the son's intentions and then waited for developments before deciding upon his next move. He declared the family would exhaust every means to prevent the marriage, which he considered ill advised in the extreme.

New Geography Waits for Peace

SACRAMENTO, March 7.—Until the boundaries of the countries in Europe are more permanent than a trench that is likely to be obliterated by big shells, the California state board of education will not consider the adoption of a new geography.

The contract for the geography now in use expires this year, but the pupils will continue to use the book until a new one can be written with some degree of assurance that it will not be obsolete the next day.

HOP SING TONG MEN TAKE TOLL OF TWO LIVES

GUNMEN KILL BO ON TONG MEMBER IN REVENGE

BULLETIN.

SAN FRANCISCO, March 7.—Joy Kim Duck, Chinese, 19 years old, was fatally shot on Grant avenue in Chinatown at 2:15 o'clock this afternoon by a Hop Sing blighinder. Jew he belonged to no tong and it is believed he was mistaken for a Suesy. One of the blighinders, Sing headquarter and into St. Louis alley, as had a blighinder an hour previously in the shooting of Set 71.

SAN FRANCISCO, March 7.—Two Chinese were shot today by Hop Sing tong gunmen in retaliation for the murder last night of one Hop Sing man and the wounding of four others.

The latest victim today was Set Yit, a member of the Hop Sing tong. He was shot and fatally wounded while walking along Grant avenue. Inasmuch as his tong is not at war, the police suspect that he was shot when mistaken for a member of the Suesy Ong tong.

A Hop Sing gunman stole up behind Set and fired four shots. Three of them struck him in the back. The blighinder threw his gun away in

the Suesy Sing building, Grant avenue and Washington street, through which he fled.

Set was taken to the Central Emergency hospital, but there is no chance for his recovery.

Wong Loy, a laundry owner of 2412 Geary street, veteran of the Suesy Ong tong, was the other victim today. Wong was wounded in his place of business early this morning. He had arisen and was lighting his fire while his seven employees slumbered in their bunks. Suddenly the Hop Sing man peered through the door and fired five shots. One struck Wong in the arm. Wong said that he recognized his assailant as Gee Gie Hue.

Last night's shooting was started in the Lyceum Chinese Theater, across the street from the Hall of Justice at Kearny and Washington streets.

While the Chinese actors on the stage were presenting "The Tragedy of the Seven Emperors," there came a more realistic tragedy in the audience. The play, however, was not halted, and the spectators stoically watched the performance, paying no attention to the battle of the tong.

Wong Wing of 302 Grant avenue, Suesy Ong tong man, is alleged to have entered the theater and demanded that five Hop Sing men give up their seats in the front rows. They refused and he fired five shots, hitting a man with each. He ran from the place, but was arrested. Meantime, save for the sound of the shots, there had been no call for the police. The ambulance came and took away two wounded men. Then someone said there was a dead one inside. The morgue wagon came and took him away and then two more wounded Chinese were discovered.

Immediately the police of Oakland and the other coast cities were notified and were expected to start all along the Pacific slope.

House Members Arrayed to Fight Diver Warning Resolution Battle

Trouble Subject of Senate Speech

Sutherland of Utah Says Right Must Be Upheld

WASHINGTON, March 7.—Discussing armed ships today in the Senate, Senator Sutherland of Utah, a Republican member of the foreign relations committee, stood squarely behind President Wilson in his policy dealing with Germany in the submarine negotiations.

"I do not want war at any time," said Senator Sutherland, "and I pray God that it may not come now; but I would rather have war, with all its sacrifices and suffering, than that this nation, with its long history of heroism and glory, should play the part of a weakling, confronted by the supreme national duty, because it places greater value on its ease than upon its honor."

SHOULD ASK RECKONING.

"I am one of those who desire peace, but a nation, when all other means fail, that will not resent a fight and illegal attempt upon the lives of its citizens, is only less detestable than a man who will not fight for his wife and children. And if the life of an American citizen is again taken by the illegal and deliberate sinking without warning of a merchant ship, unarmed or armed only for defense, our government should hold the offending nation to a stern reckoning."

"I shall never give my consent to the issuance of a formal and official notice such as has been proposed, which, if not heeded, would, without meaning our duty in the least, have the effect of embarrassing and weakening our moral standing if we should once more be under the sad necessity of seeking reparation for the destruction of the lives of our people."

Senator Sutherland, in discussing the legal status of armed merchant ships under international law and the relation thereto of the submarine, contended that the submarine must yield to the law and not the law to the submarine. If the law yields to the submarine, he said, and allows the under-water boat to sink vessels armed defensively only without warning and without giving passengers and crew a chance to get to a place of safety, it will be inviting the sinking of unarmed ships as well, since the officer of the submarine will determine in advance whether a given vessel is armed or not.

"DELIBERATELY ILLEGAL."

"The question next arises—and, indeed, it is really the crucial question—shall our citizens be officially advised to forbear from traveling on belligerent merchant vessels for their defense? Shall we, indeed, shall we go further and forbid their doing so under penalty for disobedience? If I am correct in what I have already said, namely, that these merchant ships have the right to carry defensive armament, it follows that such a ship has the same status as though unarmed and that the right of a neutral citizen to transport his goods or travel upon either is the same and not a different right, and that, in fact, is the decision of our own Supreme Court in a great case decided many years ago and never since overruled or modified.

"If, therefore, a citizen takes passage upon a ship so armed and loses his life by the sinking of the ship without warning, what must be the contention and claim of this government? To my mind, clearly this: That the citizen in the exercise of a clear right has been deprived of his life by the deliberately illegal act of the belligerent government which sent the submarine on its mission of death."

Senator Sutherland also opposed any change in the rule with respect to the sale of munitions of war or arming merchant ships for defense, asserting that any such changes now would be an unequal act.

ONE YEAR TERM.

SAN FRANCISCO, March 7.—Edward Smith, convicted in connection with the straw bond expose, was sentenced today in the Superior Court to one year in the county jail.

STIRRING EVENTS MARK OPENING STRUGGLE ON WHICH MUCH HINGES

WASHINGTON, March 7.—The first test vote in the House today on the armed ship question was the administration forces won 258 to 100.

WASHINGTON, March 7.—Representative Robert M. Page of North Carolina will not be a candidate for re-election, because he disagrees with President Wilson in the submarine controversy.

Page, who is a brother of Ambassador Page in London, so announced in a letter to his constituents. The announcement caused a sensation in the House at the moment of a vote on what virtually is a proposal not to interfere with the President's diplomatic negotiations.

WASHINGTON, March 7.—Prospects of a sensational debate attracted a record crowd to the House side of the Capitol long before the doors opened. Men, women and children came ready for a long and hot lunch, boxes, milk bottles, opera glasses and books formed the principal part of their equipment. When the public galleries were thrown open there was a rush and the galleries filled within five minutes.

The spirit of combat seemed to be in the air. Two negro burbers in the House barber shop wound up an argument by throwing toilet water bottles at each other. Both had to be locked up.

Party Leaders Confident of Result

President's Forces Win First Vote on Ruling

WASHINGTON, March 7.—President Wilson's stand that Congress shall not advise Americans to abandon their rights to travel the seas on merchant ships armed for defense in accordance with international law, was endorsed in the House today by two heavy test votes on the McLe-more resolution.

By substantial majorities the administration forces defeated attempts to amend the resolution to the liking of the President's opponents and put it through to the House without amendment for a vote under a special rule at the end of four hours' debate.

About 6 o'clock this afternoon the administration forces will move to table the McLe-more resolution, and the heavy votes taken today by the two preliminary tests indicate that they will kill it by a substantial majority.

Once tabled, the resolution will have gone the way of the Gore resolution in the Senate, and a majority of Congress will have been placed on record before the world as demonstrating that it does not endorse the dissensions against the President's foreign policy.

With the agitation finally disposed of, the President and Secretary Lansing will resume the submarine negotiations with Germany, a quick succession today the House rejected the proposal to allow anti-administration amendments to the McLe-more resolution and then adopted the special rule for consideration of the resolution itself, routing the opposition by a vote of 265 to 160 and 271 to 138 respectively.

Immediately after the adoption of the rule debate began on the resolution itself, Chairman Flood of the foreign affairs committee moving to table it.

GERMANS GAIN IN RENEWAL OF DRIVE

BERLIN, March 7.—The war office announced today that the village of Presnes, in the Woivre, southeast of Verdun, was captured this morning by Germans.

LONDON, March 7.—The attack on Verdun has shifted to the west and the Germans are now pounding their way toward the fortress from beyond the Meuse, advancing along the rule road that parallels the western bank.

Last night the Crown Prince's troops assaulted and took the town of Forges, nine miles northwest of Verdun, but were prevented by the French from debouching against the Cote de L'Or, a height about a mile to the south.

Today comes the admission from Paris that the Germans, after a violent bombardment, succeeded in forcing their way through Forges and Regneville, a village a mile and a half southeast. Simultaneously an entire division captured hill No. 265, southwest of Regneville. Heavy losses were sustained by the Germans in taking this position, Paris declares.

French lines further west have held and the French in possession of the Bethincourt and nearby territory and still occupy Cote de L'Or.

There is notable artillery activity along the immediate front of Verdun, east of the Meuse, as well as in the Woivre district southeast of the fortress.

The first confirmation of reports that the British were assisting the French in the defense of Verdun came today in a statement that an Australian siege brigade was fighting there. The British big guns are said to have been doing great execution.

Eighteen Perish in Jail Bath Explosion

EL PASO, Tex., March 7.—Nine more victims of the disinfection bath explosion, which last yesterday burned forty-four prisoners in the jail died early today. These additional deaths brought the list of fatalities up to eighteen, and a number of the more seriously injured in the various hospitals were momentarily expected to die.

The coroner's inquest and an investigation by city officials, ordered for today, had to do promptly with statements made by guards and survivors, who declared that the explosion had been caused by the lighting of a match by one of the prisoners. The fire of the match ignited the volatile vapors arising from the mixture of gasoline, kerosene and vinegar, in which the prisoners, mostly Mexicans, were being bathed in conformity with sanitary measures devised by city health authorities to prevent the spread of disease from Mexican arrivals.

Hero of War Meets Accidental Death

PARIS, March 7.—Major Lord Desmond, brother of the Duke of Leinster and heir presumptive to that title, was accidentally killed, says a Galatz dispatch to the Mail. He was experimenting in his tent with a new kind of bomb when it exploded and a fragment struck him in the head. He was taken to a hospital and died an hour later.

Lord Desmond was wounded in battle at the beginning of the war and was mentioned in dispatches for distinguished service. He was born in 1853 and educated at Eton.

Shell Hits American Consulate, Trebizond

WASHINGTON, March 7.—The American consulate at Trebizond, a Turkish port of the Black Sea, was struck by a shell during the bombardment by two Russian torpedo-boats on March 1, and a Persian subject was killed within twenty feet of the desk of Consul Oscar S. Helzer. Another shell struck the residence of the vice-consul, adjoining.

Marriage May Unite Hapsburg and Bulgar

BERLIN, March 7.—A marriage is being arranged between Prince Boris, eldest son of King Ferdinand of Bulgaria, and heir to the throne, and a princess of the house of Hapsburg, according to the Journal des Balkans, affect several branches of large German firms.

Prince Boris of Bulgaria was born at Sofia, January 18, 1894, and exercises a high command in the Bulgarian army. The head of the Hapsburg family is the Emperor Francis Joseph. King Ferdinand, according to latest reports, is in Vienna, where he arrived after the second visit which he has made to that capital within a month.

Shell Hits American Consulate, Trebizond

WASHINGTON, March 7.—The American consulate at Trebizond, a Turkish port of the Black Sea, was struck by a shell during the bombardment by two Russian torpedo-boats on March 1, and a Persian subject was killed within twenty feet of the desk of Consul Oscar S. Helzer. Another shell struck the residence of the vice-consul, adjoining.

CROWDS GO TO HEAR TALE OF SCANDAL

OROVILLE, March 7.—With 100 talemen and fifty witnesses summoned, the courtroom packed and big crowds, unable to enter the courtroom, waiting outside in the hope of getting a glimpse of defendant and complaining witness, Rev. Madison Slaughter, pastor of the First Baptist church of Chico, went on trial today. The courthouse at Oroville was crowded. Corridors were jammed with curious people, and it was with difficulty that officers kept the courtroom aisles clear.

The pastor, who is accused of a statutory crime against Gertrude Lamson, 15 years old, informed his parishioners Sunday that if they wanted to attend his trial they had better come early. They did. The first train from Chico brought in a large crowd.

Members of his congregation, his wife and Chico business men who have stood by the pastor through his troubles accompanied him into court today. The church trustees who have implicit faith in him, were also present.

Little was done today, several jurors being questioned and passed. The actual taking of evidence is not expected before late tomorrow. City Attorney Guy R. Kennedy and William H. Scholer of Chico represented the accused minister, while lined up for the prosecution will be District Attorney Raymond Leonard of Oroville, Assistant District Attorney Harry Davis of this city and possibly Deputy Attorney General Jones of San Francisco, who, it is declared by the district attorney, will be on hand to advise the district attorney's office if Jones is able to leave other duties.

MANY TALESMEN

The hundred talemen summoned are not known even to the attorneys, the secrecy being maintained to prevent possible tampering with jurors. The witnesses are not known to the opposing sides.

Mrs. Lillie Davis, who, because of her charges made against Slaughter a year ago and released this year was virtually read out of the church councils, and who was instrumental in forcing the charges of the Lamson girl against the pastor, will be a witness for the prosecution.

CRIMINALITY

The prosecution depends absolutely on the statement of the Lamson girl for conviction. The defense hopes to break down her testimony and that she will be subjected to a grueling cross-examination is certain.

The purpose of the trial will be witnesses. They maintain their charges against Slaughter and publicly and privately voice their confidence in the pastor as a man and a clergyman. The Northern Electric Railway company has arranged for extra transportation facilities between Chico and Oroville during the trial. It is expected that several hundred people from Chico will be in daily attendance at the trial. Slaughter declares he is ready for the trial and expresses his confidence in the outcome.

Swedish Government May Make Peace Move

LONDON, March 7.—Reuter's Copenhagen correspondent sends the following: A dispatch to the Politiken from Stockholm says it is stated in Swedish political circles that the Swedish government on two separate occasions applied to the United States to obtain President Wilson's co-operation for concerted mediation towards peace.

"President Wilson, who already at an early stage of the war, has his offer rejected," adds the dispatch, "declined to join the movement until requested by the belligerents. It is stated at Stockholm the question is being discussed of forming a mediation conference without the co-operation of the United States."

DAMAGE SUIT FILED

Suit for \$10,000 damages was filed in the Superior Court today by Mrs. Grace Rollins, guardian of Robert Rollins, 10 years of age, against F. W. Hattenhouse, as the result of serious injuries received by the boy when he was struck by an automobile driven by the defendant at Twenty-sixth and Grove streets last October.

DIVER WARNING RESOLUTION FIGHT IS STARTED IN HOUSE

(Continued From Page 1)

amended and a vote on a straight warning resolution obtained. At 12:44 o'clock all time for debate on the rule had expired and Representative Garrett of Tennessee moved the previous question.

When the speaker put it there was a thunderous chorus of "Ayes" and "Noes."

Representative Campbell of Kentucky demanded a division and Representative Pau demanded a roll call. The vote on the previous question resulted 236 to 160. The question to adopt the special rule was then put. Representative Campbell demanded the yeas and nays and at 1:16 o'clock the roll call began on the adoption of

the rule to consider the warning resolution.

"If this rule is defeated," declared Representative Harrison, Democrat of Mississippi, an administration leader, "you will not only send joy to the hearts of people in the foreign capital, but you stab your own President in the back."

The rule providing for four hours debate on the motion to table the McLeMORE resolution was adopted by 271 to 133. One man voted present. With this action the administration forces scored another victory and placed the McLeMORE resolution before the House for debate and a vote without amendment. The administration leaders say there was no doubt the two previous votes showed they could table it by a large majority.

McLEMORE RESOLUTION

WASHINGTON, March 7.—The text of the McLeMORE resolution following a long preamble is as follows:

Resolved, That the House of Representatives of the thirty-fourth Congress of the United States do, and it hereby solemnly does request the President to warn all American citizens within the borders of the United States or its possessions or elsewhere to refrain from traveling on any and all ships of any and all the powers now or in future at war, which ship or ships shall mount guns, whether such ship be frankly armed a part of the naval forces of the power whose flag it flies or shall be called a merchant ship or otherwise and whether such gun or guns or other armament be called "offensive" or "defensive" and in case American citizens do travel on such armed belligerent ships that they do so at their own risk; That whenever the President of the United States or the Secretary of State shall come into possession of the actual memorandum of the German government containing photographic fac-similes of alleged secret instructions issued by the British government which allege secret instructions direct that so-called "defensive armament for merchant ships" shall be used offensively and that so-called "defensive armament for merchant

ships" shall be manned and directed by naval officers and men of the navy of Great Britain and that such so-called "defensive armament for merchant ships" shall be as far as possible concealed and disguised when in neutral waters and ports with evident intention to deceive, the President of the United States or the Secretary of State shall at the earliest possible moment transmit such actual memorandum of the German government with such fac-similes of alleged secret instructions of the British government and with all appendices whatsoever to "the speaker of the House" that it and they may be laid before the House for its full information and for its assistance in performing its duty and function of guarding the welfare of the country and its citizens and for its assistance in performing its constitutional duty of advising the President of the United States with the regard to foreign relations;

That the House express the determination of the people and government of the United States both to uphold all American rights and to exercise care, consideration and wisdom in avoiding actions which tend to bring American citizens and American interests into the zone of conflict, where the passions of war are raging.

Government Road Strike Is Ended

Men on the Alaska Line Return to Work

SEWARD, Alaska, March 7.—The strike of men employed on the construction of the Government's Alaska railroad is at an end today. The federal labor union at Anchorage voted yesterday to return to work pending a settlement of the wage controversy. Four hundred men have resumed work and more will be put on as soon as the union formulates a wage scale. The scale will be fixed by a committee representing the union and the Alaska Engineering Commission and will be made retroactive to the date of resumption of work. The strike began February 7, when sixty tracklayers working on the Anchorage-Matanuska branch quit work, demanding an increase in pay from 27½ cents an hour to 50 cents an hour. Two days later workmen at Anchorage organized the union, with an enrollment of 121 men, and proclaimed a general strike. The Alaska Engineering Commission is anxious to proceed with the work on the branch that will open the Matanuska coal field, and it is no further trouble is encountered, it is hoped to complete this fifty-mile section of the line the coming summer.

Woman Wins Appeal for Trial by Women

RICHMOND, March 7.—Mrs. Mary Tennant, charged with disturbing the peace, was tried this afternoon before a woman jury. Mrs. Tennant appealed to the City Council asking that she be allowed to have her case heard by a jury of women. The request was granted.

Medals Await Kroonland Heroes

Congress Learns Crew Is in Trenches

WASHINGTON, March 7.—Fifteen heroes, who as members of the crew of the steamer "Kroonland" rescued passengers from the burning liner Volturno, on the Atlantic a year and a half ago, are being sought by the Department of Commerce, which wishes to give them medals authorized by Congress. Crew-fifteen have been found and rewarded. Most of the Kroonland's crew were foreigners and at the outbreak of the war joined the armies of their several countries. The fifteen it is believed are serving now in the trenches. One man was found in Belgium.

Admits Guilt and May Get Probation

William Godfrey, jointly accused with Douglas Tilden, nephew of the noted California sculptor, of looting the store of R. Reid in Hayward on January 31, 1917, pleaded guilty to the charge in Superior Judge F. B. Ogden's court. Godfrey's case was referred to the probation office for investigation.

Baker's Nomination Is Sent to Senate

WASHINGTON, March 7.—The nomination of Newton D. Baker, former mayor of Cleveland, to be secretary of war, was sent to the Senate today.

RECALL MOVE IS OBJECT OF DOUBT

(Continued From Page 1)

so far as could be ascertained, it is unlikely that they had, were responsible for the matter, or in any way connected with the recall matter.

The fifty bus men announced that they had 300 machines and 250 workers ready to go out and get signatures. The men were seen signing the fifty bus legislation, and have suffered arrest. Many of them have been in the hands of the police court bailiffs. They ceased their fight along the tactics of submitting to arrest and asking for jury trials because they could not find 20 more bodies. It is thought that they are not liberally supplied with finances, and are not in a position, without outside aid, to finance a recall campaign.

The suggestion was made today that the filing of the recall declaration was merely a feint to see whether some one would step in and offer to finance the fight for political reasons.

LEAGUE IS SPLIT. The Taxpayers' League, the organization which supported Mayor Davis' candidacy for the recall, is split. The organization of the City and County Taxpayers' League on the part of a nucleus of men who were in the parent organization at the time of the last city election.

The affidavits of intention to circulate for the recall, which were filed by Davis, Commissioners Anderson, Bacus and Edwards were filed yesterday. The mayor and the three commissioners have five days from the date of the filing of the declaration of intention in which to either resign or file an answer to the charges contained in the affidavit. The charges against them is that they passed the fifty bus amendment as discriminatory legislation.

PERSIAN TELLS OF LAND'S AWAKENING

Predicting the awakening of Persia, commercially and intellectually, in the near future, Prince Mohammed Kaby, one of the most noted men of his country, today addressed the Advertising Bureau of the Chamber of Commerce in the Commercial Club grill, Hotel Oakland, telling of the customs of his people, their religious and colleges, and of the possibility of trade development with the advent of railroads now being planned into his land.

Prince Kaby declined to discuss the war or politics, saying that any such discussion, if disapproved by his country, would mean death for his family there. "We have not your freedom of thought in Persia," he explained.

AVOID POLITICS

Prince Kaby said in part: "I will not touch upon the political situation of the country I am going to speak about on account of the many of my family and friends, who live in countries that do not enjoy the freedom of thought of the United States, and where it is often dangerous to discuss the political situation, especially since the disastrous war in Europe. Therefore, I would like today to try and give you a general idea about the art, architecture and agriculture Hindoo-Persian of today."

"Great painters, like Michael Angelo, Rembrandt, Van Dyck, etc., we don't have among the Hindoo-Persian people, and the few that have attracted notice from the outside world, are those that have studied under the great French or Italian masters, and have strictly adhered to their school. The art of painting miniatures on ivory is, however, a native art, and the world brought to so much perfection as in Persia. Although the subjects are principally of a religious nature, and rather crude in conception, their merit is far above the ordinary."

HAVE UNIVERSITY

"We have a good university at Tcheran and Isfahan, but the greater part of the people has only a very superficial grammar-school education. There are a number of very clever native doctors in Persia, or rather 'berbaks' you would call them here, who have a fairly good knowledge of healing qualities of nearly every plant and who generally enjoy the confidence of the people in a far greater extent than the doctors who have studied at French or English universities."

"As for agricultural possibilities of the country, I am in my opinion almost unlimited—cane, wheat and barley are exported even as it is today, in immense quantities principally a sort of oats which finds a very good market in England. The farmers are, of course, almost entirely ignorant of the modern farm implements. They work today, as their fathers and grandfathers have done before them, with utensils of ages gone by, and that you Americans would find more than worthy of a collection in a museum."

"This, and the difficult problem of transportation, is in a great measure the cause, the Persian products are so little known in the world market."

Peace Rumors Heard From Turkish Front

LONDON, March 7.—The morning newspapers today continue to devote a large amount of space to consideration of the situation in Turkey, where the English correspondents believe a movement for a separate peace is rapidly gaining impetus with the sanction of the Mohammedan priests and other influential persons.

Most of the dispatches printed today are based on the testimony of refugees, and there is little direct evidence produced in them to sustain the sensational stories sent from Athens, Cairo, Saloniki and other near eastern cities.

The Daily Express publishes under the heading, "The Break-up of Turkey," a symposium of dispatches dealing with the alleged growth of a revolutionary government in various parts of Turkey.

The Daily News has a similar group of dispatches headed, "The Turkish Crisis," dealing particularly with the scarcity of food, rioting and anti-German feeling in Turkish cities.

Prussian Youth Is Called to Colors

ROTTERDAM, March 7.—All youths aged 17 have been ordered to report to the Prussian military authorities.

To Prevent Grip Cold, cause Grip-Laxative Mucous Glands to secrete the cause. There is only one "Grip-Quinine." W. W. GROVE'S signature on box, 25c, 40c, 60c.

GUSHE VICTIM OF DUEL, NOW THEORY

(Continued From Page 1)

come together round the corner from Clay street into Twelfth. They were close together, and might have been

Suddenly the shooting took place. The stranger fired at close quarters: the police star on Gushe's breast was powdered-marked, as was his uniform around the spot where the bullet entered. Gushe fired within a few seconds after the first shot was fired by his murderer.

HIS DIFFICULTIES. Gushe wore his heavy rain coat. His revolver was worn in his trouser hip pocket, under the big rain coat and the tightly buttoned service uniform coat. With a bullet in his heart, how did he patrolman struggle through these garments and free his revolver and bring it into action, within the few seconds from the time he was shot till his gun replied to that of the mysterious stranger?

Gushe's officers are asking whether Gushe makes a matter of fact ready for the shooting, and whether he did not have his weapon out when the man fired upon him.

The question is put concretely in this manner: Was not Patrolman Gushe shot dead in a duel with a known enemy, over a quarrel having to do with nothing to do with police duty?

Gushe was a quiet and friendly disposition, and his friends in the department at first scouted the idea that he could have any enemies who might have a personal grudge. It was said that his home life was exemplary and that he and his wife were on the most ideal domestic terms.

HIS LIFE DUMB

Gushe when shot fell to the sidewalk. Passersby ran to his aid. He was hurriedly taken to the receiving hospital. While he could still articulate, no question was asked of him. The patrolman died without uttering a word that would serve as a clue either to the identity of his murderer or the cause of the quarrel.

It was at first believed that he was the victim of a yeggman, whom he had attempted to question. Somebody told a man that there had been a hold-up. But nobody reported either a hold-up or an attempted hold-up. No information of any attempt at crime was given the police.

Many suspects have been arrested by the police in the past few days, but the police are looking up suspicious characters made by the patrolman and detectives in the hope of capturing the murderer. Some of these have answered closely to the description of the murderer. But all suspects have so far been able to give satisfactory accounts of what they were and what they were doing the night of the murder.

ONE MAN DETAINED

John McIntyre was arrested last night by Patrolman Petersen at Forty-sixth avenue and East Fourteenth street. He bears out the description of the murderer. But the description is so general that the police, according to Captain Petersen, arrest one hundred men without difficulty, who would fit the details. Unless some suspicious circumstance leads to a further clue, McIntyre will undoubtedly be released.

Captain Petersen said today that he had no information that would lead him to believe that the slayer of Patrolman Gushe is J. R. Brennan, or Mike Brennan, an ex-convict. Brennan, as a large, but there is nothing, so far as the police know, to connect

Says She Was Saved From Operating Table

Brother and Sister Both Relieved by Simple Remedy Available to Any One.

In her gratitude for a remedy that saved her from the possible necessity, for an operation, Mrs. Carrie Hefflin of Coats, Kans., writes: "Had it not been for Fruitola and Traxo I might have been on the operating table by now. It relieved me of at least one hundred and fifty gall stones. My brother also had suffered for years and has been greatly benefited by Fruitola and Traxo."

Fruitola is a powerful lubricant for the intestinal organs, softening the congested masses, disintegrating the hardened particles that cause so much suffering and expels the accumulation in an easy, natural way. Traxo is a splendid tonic, acting on the liver and stomach with most beneficial results and is recommended for use in connection with Fruitola to build up and restore the weakened, run-down system.

Fruitola and Traxo were prepared in the Plinius laboratories at Monticello, Ill., and arrangements have been made to supply them through representative druggists. In Oakland they can be obtained at The Owl Drug Co. stores.

Mrs. Carrie Hefflin
PHOTO BY WITHERS

him with the Oakland murder, or to lead to the belief that he was in Oakland on the night of the shooting.

The city council has offered a reward of \$500 for the capture of the murderer.

Practically every member of the Oakland police department will pay homage to Gushe's memory at his funeral, which is to be held from a downtown undertaker's parlor at 2:30 o'clock tomorrow afternoon. A platoon of patrolmen led by Chief of Police William F. Woods, Captain J. F. Lynch and Lieutenant Frederick Schroeder of the central police station will precede the hearse in the funeral procession.

The officers and patrolmen of the department, in dress uniform, will march behind the hearse to the cemetery. The names of the six pallbearers were announced today. All bearers were announced today. The bearers were: Patrolmen Harry Orbell, Edward Frohn, John Mulhern, George D. Burlbank, J. W. Maxey and F. C. Schuler.

Top-all Hat \$3

As good as any \$4 lid you ever had

All the best hat makers have tried to produce a hat as likeable as this. They acknowledge the honor to Top-alls.

1217-19 Broadway, Oakland

The Waist Dept.

has been moved to the Third Floor to gain room needed for a rapidly growing business.

Successors to Abrahamson's

MARYMONT AND UPRIGHT

13th and Washington, Oakland

Our Eastern buying is done in conjunction with thirty other merchants located in various parts of the country. This means the new goods first and rock bottom prices on everything.

Auto Hoods 48c

Made especially for after service, and they are just right. A new style with visor, full crown and loops for a veil. Black and white checks or tan.

News of New Suits, Coats and Skirts

Interesting because it tells of the new styles—correct information from authoritative sources.

Suits at \$14.75

They all reflect cleverness in design and are thorough in every detail. The Norfolk idea seems to dominate. Some with full flare effect under the belt. Some have collar of suede leather, some are trimmed with taffeta, and some with silk and gold embroidery. Many of them are in corduroy—the bright new colors. Some are in black and white checks and others in plain color serges and gabardines. Every Suit wonderful at the price.

Long Kimonos \$1.95

Made of flowered and figured crepe with embroidered and satin-trimmed collar and cuffs, finished with elastic belts. Empire and regulation kimono style. Fourth Floor.

Coats at \$6.75

We are able to quote this price by reason of a very special discount purchase. Most of them are in wide wale corduroy, sport models in forest green, apricot, ivory, Joffre blue, antique rose, navy and gold. Some lined with flowered Dolly Varden silkoline. There is another interesting lot of mixtures, plaids, coverlets, black and white checks, etc.

Skirts at \$3.95

Many of them in corduroy—colors to match the coats mentioned above. Others in serge, covert, novelty plaids, etc. Extra sizes are included with no advance in price.

House Dresses 95c A Lowered Price

Practical models in chambray and percales—checks, figures, stripes and plain colors. Square and round neck styles, with button-hole edged collar and cuffs. Sizes 34 to 44.

Silk Lisle Hose for Women

Fast Black 19c pr Sizes 9 and 9½

We are able to quote this price because of the restricted size assortment. A Silk Lisle Hose that is guaranteed fast black and stainless. Highly spliced heel and double-sole insure service. You will want to lay in a supply for the future when you see them.

OAKLAND HEADQUARTERS FOR McCALL PATTERNS

"Two Kinds of Shoe Stores"

One a store of merely shoes, which is trying to get by; our kind, where we try to give patrons their money's worth, in shoe merchandise, in shoe fitting, and in store service.

Bet. Washington and Broadway

WHY ARE SOME WOMEN STILL WEARING WINTER CLOTHES, MARIE?

"Well, Ruth, I've wondered about that myself. There are only two possible reasons. Either they don't know about CHERRY'S CREDIT SYSTEM or else they have some old-fashioned prejudice against buying clothes that way."

"I suppose so. But, confidentially, Marie, I'm sure that if those women could only step into CHERRY'S lovely shop their foolish ideas would be instantly changed with their first glimpse of the exquisite Spring garments they'd see."

"Indeed, they would! Aren't the new suits, standing with their belts and half-belts and pleats and ruffles, and the smart, full skirts. And, of course, you noticed CHERRY'S pretty new dresses. They certainly took my fancy."

"Yes, everything up there is adorable. This spring, everything is just what the doctor ordered. The new Short Coats and Suits of cool-hued, summery Wools, too, Marie, and their trim, separate skirts."

"I'm advising all my friends to go to CHERRY'S shop at 515 Thirteenth street. The store is devoted exclusively to ladies' clothing, and is just across the street at 523 Thirteenth street, is the men's store. They are carrying a splendid line of Spring merchandise in both these stores. CHERRY'S also has two stores in San Francisco, one at 1009 Market street and the other at 2400 Mission street. These stores carry both ladies' and men's goods. Other stores—Portland, Los Angeles and Sacramento.—Advertisement.

Justice May Accept "Tips," but Not Fees

When couples are married by a justice of the peace and he is given a stipend, such is classified as a "tip" instead of a fee, in the opinion of Attorney General U. S. Webb. Although a recent law prohibits the retention of fees by county officers, it is held by the attorney-general that marriage couples may give the justice of the peace who performs the ceremony a tip if they so desire as it would be their personal right to compensate him.

Justice of the Peace W. H. Rice of Modesto sought advice in the matter from him as well as other justices throughout the state may accept money for marrying people the same as members of the clergy.

PACHICO WANTS RAILROAD.—MARTINEZ, March 7.—The citizens of Pacheco today filed a petition with the board of supervisors asking the corporation of that body in having the proposed Martinez and Concord interurban electric railroad pass through Pacheco.

PLUNGE FROM FERRY.—SAN DIEGO, March 7.—An automobile carrying three men plunged off the Coronado ferry-boat last night and one of the occupants, Benjamin Crockett, was drowned. The other two, Robert Heintz and E. S. Webb, were rescued. Crockett's body was recovered.

COUPON GIVING IS DEALT HEAVY BLOW

Court Holds State May Control Premium Slip Question.

WASHINGTON, March 7.—By holding that the states have the power to impose taxes on trade coupons, redeemable in premiums, the Supreme Court has put the legality of premium advertising, by which it is estimated \$155,000,000 worth of merchandise is sold annually, within the scope of state laws.

This places entirely under the control of states the giving of coupons with cigars, cigarettes and tobacco, or premiums on trading stamps with other merchandise.

The court upheld the constitutionality of laws in Florida and Washington imposing such taxes, and dismissed the appeal of P. S. Finney of Seattle, Wash., contending that the Washington trading stamp law in that state, as manager and agent of the United Cigar Stores Company in connection with a sale to a customer, gave a trading stamp or coupon.

LEGAL IN CALIFORNIA.—The court held it was for the Legislature to pass upon the public policy involved and to adopt such regulation as they might choose.

Premium advertising has been held legal in Alabama, California, Colorado, Georgia, Maryland, Nebraska, Missouri, Minnesota, Nevada and New York. The Legislature of Washington, in 1913, passed a law requiring payment of an annual license fee of \$5000 from each merchant using trading stamps or redeemable coupons and a similar tax on each merchant furnishing trading stamps to merchants. The United Cigar Stores Company obtained a restraining order against the state attorney-general. Subsequently the Federal District Court at Spokane, Circuit Judge Gilbert and District Judge E. H. Smith, sitting in joint session, decided that the anti-trading stamp law was unconstitutional.

WAS LONG FIGHT.—Meanwhile action had been begun in the Superior Court at Seattle to prevent enforcement of the law, and Superior Judge Donald held that the law was valid. The trading stamp companies appealed to the State Supreme Court which sustained Judge Donald.

NEW YORK, March 7.—By upholding the Washington state law taxing coupons and trading stamps, the Supreme Court dealt a heavy blow to the United Profit-Sharing Company and the whole system of profit-sharing by means of coupons.

United Profit-Sharing stocks on the curb suffered a decline of 23 per cent in market value, breaking from 117½ to 91½, at 11:25 on the announcement.

The decision opens the way for state legislation against the system of distributing merchandise, which has been fought by the great department stores of the country.

It does not affect the right of the stores that distribute coupons redeemable by themselves.

SEATTLE ELECTION DRAWS INTEREST

Mayor Gill Seeks Re-election; Wealthy Retired Lawyer Is Opponent.

SEATTLE, March 7.—An election of city officials, held in Seattle today, attracted more than local interest, partly because of the candidacy of Mayor Hiram C. Gill, known all over the United States because of his recall and subsequent re-election. Opposing Mayor Gill in his candidacy for re-election was Austin E. Griffin, a wealthy retired lawyer, born in England. Griffin has served the city as councilman and as chief of police.

Mayor Gill's participation in Seattle politics began 13 years ago when, at the age of 35 years, he was elected to the city council. Since then he has been councilman or mayor most of the time. He was elected mayor in 1910 and re-elected by the vote of the newly enfranchised women in 1911 because of scandals in the police department. He ran again in 1912 and was defeated. In 1914 he was elected mayor by 17,000 majority. Last month he was re-elected by a majority of 8000 over all other candidates.

Other offices and candidates for them at today's election are: Corporation Counsel—James E. Bradford (Incumbent); Hugh M. Caldwell, Comptroller—Harry Carroll (Incumbent); Unopposed.

Treasurer—Ed L. Terry (Incumbent); W. C. Hixson, Councilman (three to be elected)—Former Mayor William Hickman Moore, who is also a former state senator and former judge; Reginald H. Thompson, engineer who leveled Seattle's hills and laid out Strathmore park on Vancouver Island; Cecil B. Fitzgerald, councilman; Otto A. Case, former county auditor; Dr. Edwin J. Brown, Independent Socialist (opposed by regular Socialists), and Charles Marble, councilman.

The campaign leading to the primaries on February 22, and the subsequent political activities have been without bitterness or personalities. All candidates promise good government. The state prohibition law has not been an issue in any way.

Calhoun Joins Ranks of Equal Suffrage

CHICAGO, March 7.—William J. Calhoun, former United States minister to China, has joined the ranks of woman suffragists, it became known today, following a meeting yesterday of the Chicago Equal Suffrage Association. A letter from Calhoun, who has borne the reputation of being opposed to suffrage, was read. In it he included a bit of doggerel, in which he asserted he would march in the street carrying a suffrage banner.

Chicago Council to Probe Liquor Laws

CHICAGO, March 7.—The liquor question in Chicago, brought sharply to the fore by Mayor Thompson's enforcement of the Sunday closing law, will be investigated. The wet forces of the city council last night succeeded in passing an ordinance for an appropriation of \$10,000 to defray the expenses of a commission to study and report on the problem.

Democrats Find Work All Undone Wilson Demands Vote; Party Squelched

WASHINGTON, March 7.—Comparatively few people appreciate the tremendous effort which the Democratic leaders have had to expend to shut off the Gore and similar resolutions. They have been working nights and days and Sundays to dissuade those who believe the United States should warn its citizens not to travel on the armed merchantmen of belligerents from pressing one of these resolutions to vote. They have succeeded—not in changing the views of those who believe such a resolution should be passed, but in dissuading them from pressing the question to a vote on the ground that it might seriously hamper the President in his conduct of foreign affairs. And now, without consulting any of the leaders, Mr. Wilson demands an immediate vote, a demand which stifles all the arguments which the leaders have advanced, and a vote which, if cast as Mr. Wilson demands, would constitute a bitter defeat of those who hold the more pacific views. Under these circumstances it is hardly surprising that the words "monarchical" and "tyrannical" are the mildest of the terms which those members of Congress who have supported President Wilson most loyally are now applying to him.

W. B. Lewis Is Named Yosemite Supervisor

WASHINGTON, March 7.—Washington, B. Lewis, a member of the U. S. Geological Survey, stationed in Washington, was today appointed supervisor of Yosemite National Park. He will begin his duties in two weeks.

Lewis was graduated from the engineering department of the University of Michigan in 1907, and since that time has been a member of the survey. In addition to work in several of the Western states he was with the first and second National Geographic Society expeditions to Alaska and in 1911 went to Argentina, where he was engaged four years in making surveys and investigations of the industrial possibilities of northern Patagonia for the Argentine government.

Few Bottoms Cause Stagnation to Trade

WASHINGTON, March 7.—Heavy demand for Pacific ocean bottoms for East Indian products and scarcity of vessels in the Oriental trade has brought stagnation to certain South China industries that depend on export business to that distant state, according to consular reports today from Hongkong. Virtually no ordinary Chinese merchandise is going forward now to America, it is said.

The general freight situation in all eastern ports is serious, it is declared. Every warehouse in Hongkong is jammed with goods awaiting shipment to the United States. Freight rates have been increased four times within a month and only goods in greatest demand are being moved.

Republicans to Meet in County Committee

Chairman Clinton C. Dodge has called a meeting of the Republican County Committee at headquarters in the Syndicate building at 8 p. m. tonight. Reports will be made on the progress of the initiative and referendum petitions, which now have been in the hands of circulating for one week. Outlines for the coming campaign for the election of delegates to the Republican national convention will also be reviewed. At a recent meeting of the committee the campaign committee was discharged with a vote of thanks. It is probable, with the press of a busy campaign, that a new committee may be appointed.

NEED NAMES TO PLACE CANDIDATES

Petitions to Place 26 as Delegates Are Being Circulated.

SAN FRANCISCO, March 7.—Preparations were being made today to circulate petitions for signature to place the 26 candidates for delegates on the Republican ballot at the primary of May 2. It may be necessary, in carrying out the law, to circulate the individual petitions for each one of the 26. The maximum number of signatures required is 5000. It is pointed out that the 26 alternates are not named by the individual candidates, but according to the law, by a meeting of all the delegates, after their election and before they leave for Chicago in June.

One great difficulty which is being met is the small registration of this year, and the fact that no citizen will be qualified to vote at the May primary who has not registered since January 1 of this year, and not later than April 1. The question is even raised whether all of those mentioned for delegates in all the parties in the state have registered, as they must to qualify their candidacy. It is also pointed out that those circulating petitions for candidates must have registered, and that all signers of petitions must have put their names on the Great Register previously.

Registering Germany has reported that up to Saturday night but 5121 voters had registered in San Francisco. There are but 23 days more in which to register for the Presidential primary. The registration in San Francisco at present shows the following division between political parties:

Republican 25,480
Democrat 5,313
Progressive 1,155
Socialist 548
Prohibition 90
Union Labor 90
Declined to state political preference 7,412
Total 39,121

Strike Record Shows Many Men Involved

WASHINGTON, March 7.—January's strikes and lockouts numbered 117 and involved 183,900 men, according to figures made public today by the Department of Labor. Most of the strikes were in the metal trades and grew out of demands for wage increases. The clothing industries furnished twenty strikes and the building trades sixteen. New York and Pennsylvania led in number of strikes with twenty-nine and twenty-eight respectively. The department reports most of the strikes settled by compromise.

SUFFERED FROM LAME BACK, WEAK KIDNEYS AND DIZZINESS

Dear Editor: Last winter I suffered terribly from lame back, weak kidneys and dizziness, and uric acid in the blood caused me to feel miserable. I sent to Dr. Pierce of Buffalo, N. Y., for his new remedy, "Anuric." As soon as the box of tablets came by mail I commenced taking them, and reaped untold good from their use. (Signed)

MRS. KATE THOMPSON. Note.—This "Anuric" is adapted especially for kidney complaints and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, enlargement of the kidneys, inflammation of the bladder, scalding urine and urinary troubles. The physicians and specialists at Dr. Pierce's great institution in Buffalo, N. Y., have thoroughly tested this prescription and

EXPORT DUTY ON GASOLINE URGED

Revenue Would Nearly Support Navy, Advocate Urges.

WASHINGTON, March 7.—A bill calling for an export duty of 50 cents a gallon on all gasoline shipped out of this country was introduced yesterday by Representative Fred A. Britten of Chicago. If it is adopted and if the entente allies continue to take as much gasoline from the United States as they used in 1915 the resulting revenue will be almost sufficient to pay the annual cost of maintaining the navy, Britten said.

One-fifth of all the gasoline produced in this country last year was exported to the entente allies, according to statistics compiled by the bureau of mines, and amounted to almost 300,000,000 gallons. The annual cost of maintaining the navy is approximately \$150,000,000. The need of gasoline by all the belligerents and the fact that the United States produces 50 per cent of the world's supply alike make it certain that the foreign demand will continue.

Justice Hughes Again Withholds His Name

BOSTON, March 7.—A further refusal to sanction the use of his name as a presidential candidate was made by Justice Charles E. Hughes of the United States Supreme Court in a letter to Charles H. Brown, a former State Senator, and made public today. "As I understand it, you desire to pledge yourself as a delegate, and you find it will be necessary to have the acceptance of the candidate in whose support the pledge is made," the justice wrote. "In answer, I must adhere to the position I have taken. As I have repeatedly said, I am not a candidate in any sense and in view of my obligations as a member of the Supreme Court, I cannot permit the use of my name."

TURKISH PRICES SOAR.—WASHINGTON, March 7.—The cost of living in Constantinople has increased 185 per cent since the beginning of the war, according to confidential advices to the State Department.

Why Shouldn't the Standard Oil Company make the best oil?

Over 40 years experience in the refining of petroleum—plant equipment and refining methods that are unequalled—supervised by experts that have spent their lives in the manufacture of good lubricants—

Why shouldn't Zerolene be the oil best suited to your motor?

ZEROLENE

the Standard Oil for Motor Cars

is scientifically refined from selected California crude—**asphalt-base.**

Engineers of the Packard and other automobile companies, Exposition Juries, a noted French chemist, U.S. government experts, — all have recently declared that, for motor-cylinder lubrication, an oil made from western asphalt-base crude can be made not only equal but superior to paraffine-base oils.

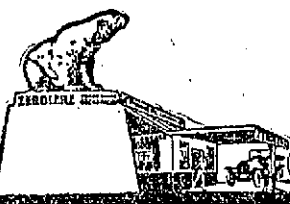

And Zerolene is not only made from the right crude, but made right—the best oil the Standard Oil Company can make.

When you empty the crankcase refill with Zerolene.

Dealers everywhere and at our SERVICE STATIONS

KEEP URIC ACID OUT OF JOINTS
Tells Rheumatism Sufferers to Eat Less Meat and Take Salts.

Rheumatism is a well-known authority. We are advised to dress warmly, keep the feet dry, avoid exposure, eat less meat, but drink plenty of good water. Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts, put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of people who are subject to rheumatism. Here you have a pleasant, effervescent, lithia-water drink which helps overcome uric acid.

Relatives Advised of Mrs. Merwin's Death
Relatives in this city of Mrs. Helen Wallace Merwin have been informed of her death in Tsinfu, North China, February 25. Mrs. Merwin, who was seventy-four years of age and a native of Ohio, went to China last September to visit her daughter, Dr. Caroline Storer Merwin, medical missionary in Tsinfu under the Presbyterian board of foreign missions. She was the wife of Charles E. Merwin and sister of Mrs. J. C. Gilson, whose husband is principal of the Leland High School. For thirty years the deceased had been a resident of Oakland.

Bible Addresses at Bethany Hall
The public is invited to attend a series of Bible addresses on the subject, "Thoughts on the Life of David," given by Mr. Alexander Livingstone of Philadelphia, at Bethany hall, 1940 Twenty-third avenue, between Nineteenth and Twentieth streets, East Oakland, on Tuesday, Wednesday, Thursday, Friday and Saturday of this week at 7:45 p. m.

DYSPEPTICS! END STOMACH MISERY, GAS, INDIGESTION

"Pape's Diapiesin" Neutralizes Acids in Stomach and Starts Digestion.
Stops Any Sourness, Heartburn, or Food Rising in Few Moments.

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking some Diapiesin. Your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic medicine, but a re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak stomachs should take a little Diapiesin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, sour risings, gas on stomach or belching of undigested food, headaches, dizziness or sick stomach, and besides, what you eat will not ferment in your stomach, you breathe with pleasant odor. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved five minutes after taking a little Diapiesin.

Get a box of Pape's Diapiesin, a 50-cent case of Pape's Diapiesin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are no more going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living. Advertisment.

A QUICK, SURE WAY TO END CATARRH
Catarrh Grows from Millions in Air Passages of Nose and Throat. Just One Way to Drive Them Out.

To stop catarrh for good you must drive from your system the germs that cause catarrh and that are now feeding and growing fast upon the swollen inflamed mucous membrane of your nose and throat.

A splendid means of destroying catarrh germs and overcoming catarrh has been recognized by physicians in the well known oil of Hyomei (pronounced High-o-mey) and it is now a very simple matter for any catarrh sufferer to use it with splendid results at home, by breathing the air through a little hard rubber inhaler device which other health druggists are supplying with each large complete treatment. Just pour a few drops of the oil of Hyomei into this inhaler, place it between your lips and breathe naturally and the pleasant smelling antiseptic germ killing air will penetrate deep down into every fold and crevice of your raw, sore nose, throat and lungs and give you quick certain relief, opening up the air passages, making you breathe easily, stopping the inflammation and discharge and driving from your system every catarrh germ that has found lodgment there.

If you want to be free from every symptom of catarrh, are tired of trying one thing after another without benefit, go to the Owl Drug Store, or any reliable drug store hereabouts and get a complete Hyomei inhaler outfit, use it every day for a few minutes and it does drive the catarrh germs out of your system, and give you real lasting relief from catarrh, your druggist will give you a catarrh back—Advertised.

Y.W.C.A. CAMPAIGN FOR FUND STARTS
Women Ask for \$30,000 for Swimming Tank and for Expenses.

A swimming pool will return 1 per cent health to tired, depleted women and girls. It will return 1 per cent happiness to thousands. It will return 4 per cent as a permanent investment without a deficit.

With these theories and in response to a petition from 1500 business women the Oakland Young Women's Christian Association started campaign this morning for \$30,000, one-half of which is wanted in order to install a swimming tank in the Webster street building, according to the original plans. The other \$15,000 required to meet the expenses of the coming year and a debt incurred during the moving and furnishing of the association in its new home last year.

Responding to the call of the association leaders—who believe that in any way could they add more to the health and same pleasure of girls in this community—nearly one hundred enlisted workers enthusiastically prepared at a dinner last night in the Webster street building to secure the needed funds. Two weeks will be given to the campaign, with which the association expects to find the public hearty sympathy.

MRS. PASSMORE HERE
Mrs. A. E. Passmore, a member of the national board who came from Minneapolis especially to participate in this association's effort to add a pool to its equipment, told the gathering that the campaign was "not for the purpose of getting things out of things, but for the purpose of getting things into them."

"The Young Women's Christian Association is an equal burden," she declared. "It is trying to bring benefits to women high and low, fortunate and unfortunate. The children of the rich have needs just as much as those of the humblest and poorest," she added. "And there is plenty of surplus here to do all the spiritual work required in the community."

Miss Grace Fisher, president of the association and one of the most earnest advocates of a swimming tank, spoke of the success which has attended the installing of such pools in Young Men's Christian Associations and Young Women's Christian Associations in various parts of the United States.

"They are proving of inestimable pleasure and benefit," she declared. "In Boston, in Portland, in Minneapolis, these pools, instead of being an expense, have brought in over \$1000 balances. In Seattle, where a pool was installed in a building erected at the same time our new one was, they have a record of having furnished 19,000 swims with a profit of \$1500 since it was opened. Yet some people have an idea it is merely a luxury and expense."

"The swimming pool is the thing most wanted by the girls. It is one of the biggest attractions of the Y. M. C. A. There is no other place for women and girls to go for this kind of exercise in a central location. It will be moderate in price and self-supporting. That is greatly desired is shown by this petition we received signed by 1500 business women and girls."

PLANS OF TANK.
The swimming tank which the workers hope to have installed as soon as the funds are raised will fill a hole at present unsightly—adjoining the north side of the otherwise completed building. According to the plans now being made by the architect, Miss Julia Morgan, it will be glass-roofed and of standard size—that is, 60 by 20 feet. Shower baths and dressing rooms will be arranged for in the basement near it and, as at any public tank, bathing suits will be rentable.

It is announced that this tank will be kept in a perfectly sanitary condition, that shower baths will be compulsory before the swim and that it will be open both during the day and evening.

Following the dinner and the spirited plans of the campaign workers to enlist the public in this enterprise, several skills were given by impromptu performers to demonstrate the successful and uncommercial methods of going about campaigning for finance.

Beginning today the corps of women who will devote their entire time to securing the \$30,000 will meet daily at 12:30 o'clock luncheon in the Webster street building to report progress and for a short prayer service. At 8:15 o'clock in the evening the workers and business girls who can get together at noon will rather, Miss Jeanette Decheret, general secretary, and one of the association members who has been instrumental in the success of many big eastern finance campaigns, is in charge.

ATHLETES ARE SET FOR BIG TOURNEY
All phases of amateur athletics, from playground games to fencing and broadsword exercises, from women's calisthenic drill to a leap from a great height into a life net by members of the same program will be presented tonight in the Municipal Auditorium at Oakland's first annual amateur athletic tournament.

The affair is unique in many ways. It marks the first appearance here of girl and women athletes on the same program with men. It is the first athletic event backed by the women's clubs, and given the sanction of the women through two score patronesses representing every citizen's organization of the east bay cities.

The tournament is the first attempt to present in a comprehensive form a concrete showing of what has been achieved by the playgrounds, the Young Men's and Young Women's Christian Associations and the athletic departments of the schools, high schools, colleges and the University of California. It is an exhibition of the means provided by a modern city to promote physical fitness on the part of the citizen at large.

Organizations and persons rarely appearing among the box holders for events at the Municipal Auditorium are listed by Miss Beattie J. Wood, chairman of the tickets and box committee. Mothers and sisters and brothers and fathers will crowd the balcony of the big arena to watch the tiring circus to be staged tonight. George E. Dickie, city superintendent of playgrounds, is head of the executive committee in charge of the big affair.

Proceeds from the tournament will be used to send the Oakland Golds, a crack basketball team, to represent the city at the international tournament at Chicago, March 15, 16 and 17.

JAS. T. TREADWELL DROPS DEAD STRICKEN WHILE CROSSING BAY NOTED WESTERN MINING MAN

James T. Treadwell, one of the most famous mining men of the West, brother and co-worker of the discoverer of the famous Alaska Treadwell mine, is dead, the result of a sudden attack of heart failure on a Key Route ferryboat last evening. Treadwell, who was returning to his home from San Francisco, suddenly fell from his seat and was dead before aid could be rendered him by his fellow passengers.

James Treadwell was one of the foremost figures in California and Alaska mining operations and for some years past had retired from active life, making his home at the famous Treadwell place at the junction of Broadway and College avenue, one of the show places of Oakland. He was 66 years of age. Born at St. Andrews, New Brunswick, he came to California with his brother, John, in the fifties, when they crossed the isthmus of Panama and began their careers as building contractors in San Francisco, later taking up mining. They soon became famous figures in the western mining camps and amassed vast fortunes.

ORGANIZED TESLA MINE.
Together they organized the Tesla Coal Company in Alameda county. James Treadwell was a director of the defunct California Safe Deposit and Trust Company.

About thirty-five years ago they went to Alaska, where they founded gold on Douglas island, which later produced the great Alaska Treadwell mine, discovered by John Treadwell, developed into the greatest gold producer, for a time, in the world and later sold for a fortune to the Rothschilds.

About ten years ago James Treadwell retired from active business, making his home in the beautiful Oakland estate on Broadway. He is survived by his widow, Mrs. Louisa Treadwell, two sons, Charles Treadwell of San Francisco and George B. Treadwell of Oakland, a daughter, Mrs. Milton Howarth, also of Oakland, and two brothers, John Treadwell, now in New York, and Nathan Treadwell of New Brunswick, and two sisters, Mrs. James Sloop of St. Andrews and Mrs. R. J. McQuoid of Eagle Point, Ore.

SON ON HONEYMOON.
The funeral arrangements have not yet been made, pending the arrival of his son, George Treadwell, who left for the south Saturday night on his honeymoon. The latter has been notified by wire of his father's death and is now on his way to Oakland. James Treadwell was the father of Edward Treadwell, the mining expert killed in a snowslide in Trinity county about three years ago.

Treadwell's death was sudden and a complete surprise to his family. He had, it is declared by relatives and friends, never complained of illness in his entire life. On board the boat, up to a moment before his death, he had been laughing and chatting with several friends. As the boat approached the Oakland pier he was suddenly stricken. He had been visiting his son, Charles Treadwell, an attorney across the bay, and had received from the latter a number of business papers. The remains were taken to San Francisco through the courtesy of Coroner Grant D. Miller and the funeral will be held on the other side of the bay, probably on Thursday.

MARTINEZ GIRL BETROTHED.
MARTINEZ, March 7.—The engagement was announced today of Miss Helen Muriel Robrecht, daughter of Mrs. Helen Robrecht of this city, and Irving Thomas Griffiths, a young business man of San Francisco, whose home is in Alameda. Miss Robrecht, who is very popular in social circles here, is an employee in the county assessor's office. No date has been set for the wedding.

ORPET INDICTED BY GRAND JURY

CHICAGO, March 7.—William H. Orpet, University of Wisconsin student, was indicted yesterday for the murder of Marian Frances Lambert, the Lake Forest high school girl whose body was found covered with snow in Helm's woods on February 10. Cyanide of potassium caused her death.

The grand jury reported the indictment within twenty minutes after the last witness had been heard. The report follows:

"The grand jury here now returns into open court an indictment charging

William Orpet with the crime of murder."

Two witnesses by whom State's Attorney Dady gets great store failed to respond to subpoenas to appear before the grand jury. They were Otto Peterson, the University of Wisconsin student who mailed the "alibi" letter in Madison for Orpet on the day Marian Lambert died, and Charles Hestinger, the drug clerk in Madison who sold Orpet a two-ounce phial on February 3. This phial is believed to have been the container of the poison which killed the girl.

Frank Lambert, father of the slain girl, and E. O. Orpet, father of the youth, indicted for her murder, were witnesses. The men, once fast friends, met and shook hands in sympathy at the inquest, but yesterday Orpet sat alone during the time he was in the court house.

Miss Lambert, mother of Marian, was unable to appear because of illness. Josephine Davis and Verne Jackson, chums of Marian Lambert, were the most important witnesses.

"Jo" Davis knew every secret of Marian Lambert's life and all about the love affair with Will Orpet and will be the chief witness for the State at the trial of Orpet. Verne Jackson was with Marian and "Jo" at the station on the morning that Marian met Orpet in Helm's woods instead of going on to school.

Albert Longland, gardener on the Cora H. McCormick estate, told of disposing of some cyanide on the order of Orpet's father, superintendent of the estate. This was after the girl's death.

BROTHERS ARE KILLED.
GRANGER, Wash., March 7.—B. and E. E. Forman, brothers, were killed instantly yesterday when a train struck an automobile in which they were riding at a crossing near here. The automobile was reduced to scrap. The two victims were linemen in the employ of a power company.

A Value unsurpassed at the price

New Spring Suits

\$14.75

This suit for only \$14.75 is a wonder. If we priced this suit as others would, you would pay more than \$14.75

Our Greatest Piano Sale

To come and investigate this sale of Exposition and State Building pianos and others costs nothing. It may mean much in the way of making life worth living.

When a highest-grade piano is obtainable at the price of a mediocre one, and on easier payments than ever, do you not owe it to your home at least to take a few minutes and investigate? When this sale has ended it will be too late. Every reasonable concession will now be cheerfully made. See us now.

A modern player piano means more in the way of entertainment, education and real enjoyment to every member of the family than any investment that can possibly be made.

NOW a modern player piano can actually be obtained for only \$6 a month. A deposit of only \$3 secures one. And the very finest and most valuable player piano will be supplied at these low sale prices, to be paid in forty months' time. Splendid inducements to those wishing to pay all cash, a bonus of 25c on each dollar paid over \$20 as an initial payment, and up to as much as \$200.

Each instrument is accompanied with selections from our studio or committee music roll catalogues, \$1 worth of music rolls free with every \$4 paid.

We have no time to lose; are making every inducement to every reasonable buyer, because every one of these fine instruments must find a purchaser within the next few days.

If not sold at once we shall ship them elsewhere. It will surely pay to act quickly.

The time to buy is when selling is imperative. That time is right now. Come and see to-night or first thing in the morning, or telephone.

Every instrument in this great selling event is bound to prove satisfactory to the purchaser because it is definitely guaranteed by the manufacturers as well as by ourselves. We ship everywhere subject to examination and free trial.

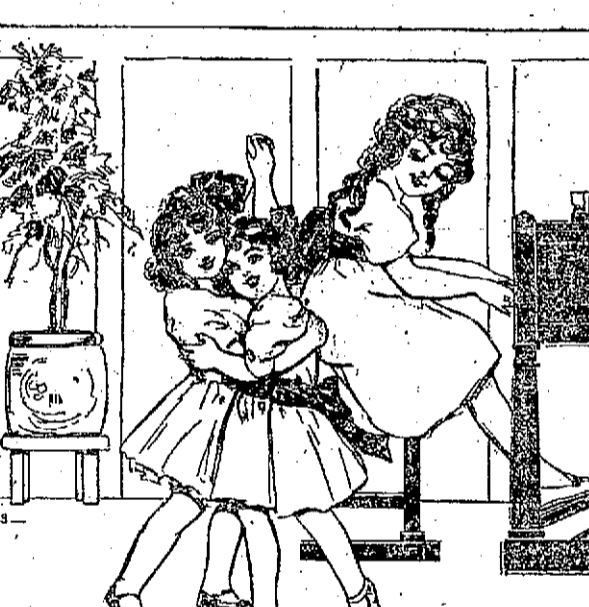

1448 San Pablo Ave.
Opposite and north of City Hall, Oakland, Calif.

\$475 or \$500 at Half Price

Among the new pianos offered will be found strictly first-class cabinet grand uprights, standing four feet eight inches high, with full length and three pedals (the third a sostenuto pedal) for \$257, and the plainer styles for \$236, which is almost half price. Catalogs free for the asking.

Only \$6 Necessary
At these cost prices the terms of payment should not be less than \$20 down and \$10 a month, but for an additional 4 per cent and simple interest, any instrument below \$300 in value may be had on payments of as little as \$6 down and \$6 monthly.

ONLY \$2 Required to Secure a Player Piano

The superb new model 180 Bungalow player piano—correct in design, perfect in finish, purest in tone, easiest to operate, most durable of all, and not expensive—Included in this sale at most liberal concession in price. Awarded the gold medal at Panama-Pacific International Exposition, 1915.

There are several floors full of fine pianos, embracing all the renowned makes, nearly all of the best, and others not to be told from new, though second hand, and all literally slaughtered at these low sale prices:

Ebonyized or dark cases for \$22 still less, namely \$155. Elo Music House.

Plan to Abolish Grade Crossings

Plans for a movement to abolish all railroad grade crossings in the county are under way. Chambers of Commerce, the Board of Supervisors and other organizations are considering this reform, which is also being considered before the railroad commission. Alameda county has started the work with the construction of the new under-grade crossing at Niles, and several similar crossings are planned on important roads.

The most effective law to eliminate the danger in grade crossings, according to W. S. Palmer, president of the Northwestern Pacific, is a law compelling all vehicles to stop before crossing a track. He admits a hazard in grade crossings, but states that to eliminate all of these would be too costly.

Commissioner Max Thelan of the railroad commission and several railroad men have conferred on the subject, and the railroad board is now seeking expression from city and county governments on the matter.

Stockton Attorney Under Indictment

STOCKTON, March 7.—Following an investigation of several weeks, the Grand Jury returned an indictment against H. Stanley Crane, an attorney of Stockton. Three counts are contained in the indictment—grand larceny, obtaining money by false pretenses and embezzlement.

Attorney Crane was immediately placed under arrest and his bond fixed at \$40,000. He was not taken to jail, however, being permitted, in company of his counsel and a deputy sheriff, to seek bondsman.

The indictment grew out of a transaction in which the attorney is said to have robbed his client of about \$400.

RUB RHUMATIC PAINS FROM ACHING JOINTS

Rub Pain Right Out with Small Trial Bottle of Old "St. Jacob's Oil."

Stop "dodging" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacob's Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacob's Oil" is a harmless rheumatism liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Limber up! Get a small trial bottle of old-time, honest "St. Jacob's Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.—Advertisement.

THEY REFUSE TO EAT

At periods in most children's lives they fail to relish their meals and refuse to eat even the delicacies prepared to tempt their appetites. They lack ambition, and growth seems impeded, which causes anxiety and worry.

To compel them to eat is a grave mistake, because nutrition is impaired. Wealthful exercise in fresh air and sunshine is important, but equally important is a spoonful of Scott's Emulsion three times a day to feed the tissues and furnish food-energy to improve their blood, add nutrition and sharpen their appetites.

The highly concentrated medicinal food in Scott's Emulsion supplies the very elements children need to build up their strength. They relish Scott's—it is free from alcohol.

Scott & Bowne, Bloomfield, N. J. 15-34

GUMP'S

As a Matter of Course

The Advent of Spring

Suggests the freshening up and beautifying of your home—

New Draperies and Curtains will be required. Probably several rooms will need repapering. Furniture will be rearranged with the consequent discovery that new pieces are wanted.

The Adornment of the Home is a Real Art—not a mere commercial transaction. We are prepared with every facility to meet the demands for Correct Home Furnishing.

Our line of Furniture embraces every period.

Expert Designers and Decorators at your service.

TELLS PROGRESS IN TOBACCO TRADE

Big Figures Shown by Revenue Man in North Carolina.

Following are extracts from an address delivered by Col. A. D. Watts, collector of internal revenue for the Fifth district of North Carolina, at a smoker given by the Twin City Club, Winston-Salem, February 4, 1916:

SOME COMPARISONS.

"Winston-Salem is supplying one-fourth of all the chewing and smoking tobacco consumed in the United States, besides exporting vast quantities to foreign lands. This statement is taken from the report of the commissioner of internal revenue for the first quarter of the present fiscal year and from private advices from Washington, as to the second quarter, which ended December 31, last.

"Your city is making one-seventh of all tobacco products—chewing and smoking tobacco, cigars, cigarettes and snuff—manufactured in the United States. Your manufacturers are paying on an average of \$37,000 a day revenue taxes to the government, and the amount is increasing from month to month. When your government building, much the handsomest in the State, was completed last July at a cost of \$250,000, your newspapers made the statement that the taxes paid in your city to Uncle Sam for the first eight days of its occupancy would pay for it. Since September, it has taken only a fraction over seven average daily collections here to equal its cost. So far this week Mr. Crawford has taken in \$205,425.50. I predict that before 1916 shall have ended your average weekly payments to the government on tobacco will more than pay for this magnificent building, leaving the collections for the other fifty-one weeks as clear profit to the government.

TOBACCO SHIPMENTS.

"Winston-Salem is shipping on an average each week day all parts of this country and to foreign lands at least \$150,000 of tobacco products.

"In conclusion, Winston-Salem manufactures more tobacco, all tobacco products are taken into this statement than any other city on earth, little or big. Industrially, she is easily first in North Carolina, population considered, first in America and I believe, in the world; socially, a never failing delight to her friends."

Boys Confess Thefts to Pay Way to Movies

CHICAGO, March 7.—Five boys, the eldest of whom is 17 years old, have confessed, according to the police, that they are members of a band which committed twenty-five burglaries and hold-ups in Chicago in the last month. The boys, James Gussin, Robert McLaughlin, Samuel Denova, George Mills and Charles Wilson, all of Chicago, said they wanted money to spend in motion picture theaters.

SLAYER PLEADS GUILTY.

NORTH YAKIMA, Wash., March 7.—David Simon, who fled the city after killing his sister-in-law, Mrs. Little Simon, last Wednesday, and who was arrested subsequently at Beverly, Wash., pleaded guilty to murder when arraigned here yesterday. A jury was empaneled to fix the degree of the crime. Proceedings have been begun to attach Simon's property for the benefit of Mrs. Simon's four small children.

SKELETON IN CABIN.

WEAVERVILLE, March 7.—County authorities left here yesterday to investigate the finding of the skeleton at the door of a deserted cabin, near the Hammer mine, fifty-two miles down the Trinity river from here. The bones were found Sunday, with a knife and a gun near by. They were not identified.

LITTLE GIRLS SLAIN.

CHARLES RIVER, Va., March 7.—The bodies of two little daughters of Michael Rader were found in their home yesterday. An uncle, John Neal, was missing and a posse with bloodhounds set out to search for him. His dead body was found in the woods. He had shot himself.

Here's News

"Palmetta"

A Famous Palmist will be in our Children's shop on the Second Floor tomorrow morning and afternoon and for the remainder of

Baby Week

to read the palms of children and adults.

"PALMETTA" is a wizard at palmistry and will tell parents the talents of their children and for what they will be best fitted when grown up.

She will read the palms of adults accurately and reveal much that will be valuable for future guidance.

PALMETTA is coming to CAPWELL'S this week for the benefit of the children of the West Oakland Team. She will charge \$50 a reading and the proceeds will be given to this beneficent home.

PALMETTA will have her private booth, where no one can hear.

She will tell you the truth about yourself.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before putting more food into the stomach. To feel like young folks feel, like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headache or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.—Advertisement.

Indoor Life Makes Fat

TRY OIL OF KOREIN TO KEEP WEIGHT DOWN, OR TO REDUCE SUPERFLUOUS FAT.

People who are confined within doors and who are deprived of fresh, invigorating air and exercise must take precaution to guard against overweightness, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the only source of power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unhealthy and unhealthy fat is the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any persons who are satisfied with their own mind that they are too stout are advised to go to Drug Dept. at Kahn's, Broadway, San Pablo and Sixteenth street, or a good druggist and get a box of oil of korein capsules, and take one after each meal and one just before retiring at night.

Even a few days' treatment has been reported to show a noticeable reduction in weight, improved digestion and a return of old energy; footprints become lighter and the skin less flabby in appearance as superfluous fat disappears. Oil of korein is inexpensive, cannot injure, and helps the digestion. Any person who wants to reduce 15 or 20 pounds is advised to give this treatment a trial.—Advertisement.

BASEMENT STORE

OUR LOW-PRICED BASEMENT STORE is an indissoluble part of this business—with the same ownership, the same management, the same theory, the same unshaken standards, and firmly built on the same foundation principles.

All of its merchandise is new merchandise.

The Basement Store occupies a large floor space and contains twenty-three departments.

It is arranged with special thought of the comfort, convenience, good health and ease of our customers. The light, ventilation and cleanliness are provided for under instructions to our superintendent to leave nothing undone in behalf of the comfort of our customers and our employees.

Case after case of new Spring Goods entirely different from those shown upstairs, bought with the same careful attention to procuring the best values for the lower prices without sacrifice of style and durability, are now being opened up and displayed for your inspection in the best Basement Store west of Chicago.

Prettier and Better Coats were never seen

For \$10.95

If you don't think it is possible to get a good and stylish Coat for such a little price come and see these.

One of the chic styles is illustrated. In addition there are smart checks and plaids and plain colors, some with a touch of contrasting colors, others with silk poplin trimmings.

These Coats are handsomely tailored and every one is attractive.

(On Sale in Basement Only)

Silk Dresses
\$10.95 and \$12.75

Afternoon and evening frocks that are marvels of prettiness and style at the prices. Truth to tell they look to cost much more.

Creme de Chines, Messalines and Taffetas with dainty trimming touches. All new and fresh, just out of their tissue wrappings. All made in New York by a leading manufacturer. Sizes for misses and women.

(On Sale in Basement Only)

Good Corsets 59c

Be sure that the new spring suit or dress is fitted over a new corset, and the lines in this 59c corset are quite the correct thing. High and low-busted models with elastic hose supporters that are good and strong. The tops of these corsets are finished with neat embroidery. Quite a wonderful corset for 59c, as you'll agree when you see them. Sizes 18 to 30.

(On Sale in Basement Only)

Lingerie Waists 59c

Broken lines and slightly soiled waists that sell regularly for \$1.00 and \$1.25.

Voiles, crepes, lawns, with high or low necks and three-quarter and long sleeves. A trip to the laundry will make them good as new.

(On Sale in Basement Only)

Wash Petticoats 49c

A nice lot of wash petticoats for Spring and Summer wear have just been opened up for sale.

Attractive seersuckers, ginghams and chambrays, some with embroidered flounces, others with tucks and pleats.

(On Sale in Basement Only)

Safe Home Treatment for Objectionable Hairs

(Boudoir Secrets)

The electric needle is not required for the removal of hair or furz, for with the use of plain delatone the most stubborn growth can be quickly banished. A paste is made with water and a little of the powder, then spread over the hairy surface. In about two minutes it is rubbed off and the skin washed. This simple treatment not only removes the hair but leaves the skin free from blemish. Be sure you get genuine delatone.—Advertisement.

'YOURS FOR SKIN' HEALTH--POS-LAM

Quick Healing Remedy Drives Away Eczema; Stops Itching.

Poslam, the remedy for ailing skin, was made effective for YOU, after a few days, to keep you free from itching, irritation, from every affection that might render your skin unsightly.

It has helped others to attain perfect skin health and is available to you handily and inexpensively. Try it overnight to clear away redness. Apply it to any raw, abraded or eruptions surface and note improved results.

As to soaps for the skin--if ordinary kinds irritate, use Poslam Soap, medicated with Poslam.

For samples, send 4 stamps to Emergency Laboratories, 32 West 5th St., New York City. Sold by all Druggists. Advertisement.

Patagonia's "Hidden Gold" Proves Myth

SAN FRANCISCO, March 7. -- Hidden gold in Patagonia, to which Captain Thomas Owens was to lead the band of adventurers on the schooner Academy, was a myth, according to four members of the ill-fated expedition who returned to San Francisco yesterday on the Pacific Mailer Newport from Balboa. They said that Owens' real name is John Owen Whorfer, that he was a poor navigator, and that for three and a half months they sailed aimlessly around the Pacific until they finally reached the Colombian coast.

They landed sixty-five miles north of Buenaventura, and, after a few days, says the chronicle of events, October 28, Morrison died, the following day Mate Foot died. Then the vessel was towed to Buenaventura by the Colombian officials and arrived November 5.

The two bodies were buried on the shores of the Toguama river. November 9 Leo J. Behm died and three days later the Colombian officials took the Academy to Balboa.

FAMOUS DIVORCE CASE IS BASIS OF FILM PLAY

BESSIE BARRISCAL, POPULAR FILM STAR, IN "HONOR'S ALTAR" AT THE FRANKLIN TOMORROW.

Newspaper readers of a decade ago will recall the widely discussed case of a Pittsburgh millionaire who attempted to divorce the wife who had helped him in his rise to fame and fortune, in order that he might be free to marry the reigning beauty of the stage. The case was of national importance through the high social standing of the principals. The steel magnate received the censure of clergymen, publicists and statesmen throughout the country, and all kinds of assurances were suggested from ostracism to jail as punishment for individuals of his type who would seek to be divorced from an unwelcome partner by unscrupulous agents and perjured witnesses.

The principal features of this case have been used as the theme of a Triangle play entitled, "Honor's Altar," which will be shown at the Franklin theater four days commencing tomorrow. The production is from the studios of Thos. H. Ince, and Bessie Barriscale, Walter Edwards

and Lewis Stone appear in the leading roles. The story of the film portrays the unflinching trust of the loving wife and her loyalty to her husband in spite of appearances. It is this admirable trait of character that forms the basis of the husband and finally brings him to a realization of his error.

Bessie Barriscale has an emotional role that will appeal to all those with human hearts and human interests. How her innate virtue overcame the business of the man who boasted of his lack of honor in accepting a \$10,000 check from the husband for winning her affections, scores a telling effect and makes a strong picture of womanhood at its best. "Honor's Altar" has been acclaimed as one of Ince's strongest productions dealing with human life today.

The performances tonight close the engagement of Douglas Fairbanks in "His Picture in the Papers" and William Collier in "Better Late Than Never."

Mother-in-Law Joke Is Japanese Tragedy

LOS ANGELES, March 7. -- The trials of a mother-in-law are not limited to the Caucasian race.

This was demonstrated when Shigen Hashimoto, a Japanese, died suit for divorce from his little Japanese wife, Chizu Hashimoto.

And their romance, which was fortified by double marriage ties, was shattered on the rocks of "in-laws," according to the husband's attorney, Minor Moore.

Hashimoto first claimed his bride in the faraway land of cherry blossoms, where they were married in 1911, then bringing her to California, remarried her to conform to American laws. Thus, twice wedded, they came to Los Angeles to make their home.

Since then, Attorney Moore declares, the oriental husband has paid out the sum of \$700 toward the support of his mother-in-law and father-in-law. Recent Mrs. Hashimoto wanted to bring her parents into their home and made further demands of money for them, according to Attorney Moore. The husband objected.

Then the little oriental wife, who is 24 years old, rose in true occidental fashion. Mr. Moore states, packed her belongings early one morning and left the hearth and home of Hashimoto, threatening to get a divorce.

Whereupon Hashimoto anticipated her by filing suit for divorce yesterday. His complaint merely charges desertion, but Attorney Moore says the story of the "in-laws" will form the testimony in the trial of the case.

Baby Alligator Races in Chicago Hotel

CHICAGO, March 7. -- Chicago sportsmen have a new variety of contest to arouse their interest today--alligator racing. The sport was introduced in the parlors of a local hotel by Dr. E. R. Lewis of Dubuque, Ia., who has just returned from a Florida hunting trip. Two baby alligators were placed on velvet carpets in the presence of a half a hundred guests, some of whom laid wagers on the result of a 50-foot race.

Dr. Lewis, who has just returned from a Florida hunting trip, placed two baby alligators in the presence of a half a hundred guests, some of whom laid wagers on the result of a 50-foot race.

He will be glad to talk over your case with you. For this there will be no charge.

Great Crowd Will Attend Whist Party

Reservations already made indicate a tremendous attendance tonight at the pre-lenten whist tournament to be held in the West Oakland Auditorium on Tenth street, near Feralta, under the auspices of the parishioners of St. Patrick's parish, of which Rev. Father Maurice J. Barry is pastor.

Miss Dolphine Kenny and scores of other young women of the parish have taken an active interest in the success of the affair. Special arrangements have been made to accommodate all who desire to participate in the tourney.

Supervisor John F. Mullins, chairman of the general committee, will conduct the tournament. A bery of pretty young society misses in evening dress will attend to the scoring. William McNally and Fred Luz head the booster committee.

CLUB PLANS PROGRAM.
The newly organized Philathea Club of the Boulevard Congregational church of the Seminary Park district is planning an entertainment for the young folk to be given on Saturday evening of March 11, 1916, at the church. Games will be played and refreshments served.

The Flight of the Stork.

Every normal person is interested in the arrival of the stork. It is the greatest event in one's life.

The expectant mother needs, above everything else, comfort and peace of mind. This she is sure to have if Mother's Friend, the safe, dependable external remedy, is used to soothe the network of nerves and to enable the muscles to expand naturally, thus relieving undue strain.

Mother's Friend, obtained at any drug store, is the one remedy used and recommended by thousands of women everywhere, who testify as to its wonderful merit.

OAKLAND TO BE AVIATION METROPOLIS

U. S. Navy Will Support Militia Corps in City

Plans for a strong militia aviation corps in Oakland, supported by the United States navy and operated by local aviators, have been started by Secretary Joseph E. Caine of the Chamber of Commerce and Oakland manufacturers, who today consulted with Major Ralph J. Faneuf on plans for the organization of such a means

of coast defense. The plan, in accordance with the recommendations made by Colonel William A. Glassford of the United States army yesterday, is to be fostered by the navy, which, in a letter received by Secretary Caiman this morning, has offered support to the venture.

The offer is made by Captain Fred Eric Bassett, who is in charge of naval militia affairs. According to his letter, the government will furnish gasoline, hangars, supplies and other aid to aviation corps to be established by the naval militia or national guard. This aid, it is declared, will be furnished for privately owned aeroplanes borrowed by the state.

Secretary Calne's plan is to enlarge the interest of the aviators on Alamogordo media marsh and the aeroplane factories on this side of the bay.

CHANGE IN ESTIMATES.

Captain Mark E. Bristol made a estimate last year for the purchase of forty-six aeroplanes by the government to carry on this work, but this item was slashed by Secretary Daniels. However, it was provided

The plan is to establish in Oakland the first of the coast defense aviation camps urged by Colonel Glassford, who declares such camps

to be the most efficient and the cheapest way of guarding the Pacific coast in time of war, by reconnoitering and watching for hostile invasion on the Pacific.

Secretary Caine believes that with the co-operation of the factories and aviators now in Oakland the nucleus of a fleet could be built up in a few months.

On the Alameda marsh at present there are more aviators and machines than in any other city in California.

of the manufacturers' committee is to interview Silas Christofferson, director of the aviation operations on the Alameda marsh and a manufacturer of machines. A big aeroplane engine factory, now supplying machines to the allies, will also be approached by the committee.

OAKLAND'S ADVANTAGE.
"There is no doubt that Oakland can take advantage of the navy's offer with greater ease and less expense than any city on the coast," said

Calne, "because we have the machine and flyers already here. Christofferson and a navy instructor could have charge of the camp and act as commanders and instructors, under military support, and the state, as well as the government, could help financially."

According to army aviators, the Oakland station could cover the coast up and down, for a large distance. A second station at Santa Cruz, on Monterey, the present station at San Diego, and two more along the

north coast, it is declared, would mean virtually perfect coast guard service, with the Oakland camp as the principal unit.

Committees of the Chamber of Commerce next week will further take up the matter.

TWELFTH AND BROADWAY.

Whirling Disks Shot by Wheel, New War Gun

A gun which, by centrifugal force, can hurl into all directions chilled steel disks with razor-like edges, is the latest invention to add horror to trench warfare. The new engine is the invention of a California man, and is being promoted by Eugene De Saba of New York. It is asserted that it will revolutionize trench warfare in Europe.

A commission of French and English army experts are now examining the gun, and De Saba expects to sign up a contract for 10,000 of the weapons.

The gun consists of a wheel which makes 3500 revolutions a minute. The small metallic disks, the size of a quarter, are hurled from it by centrifugal force, and "fall" at a swift rate of speed. Trees or trenches are no protection, as they may be adjusted to describe curves. De Saba says that a gun, loaded with 1,000,000 disks will cost \$300.

IMPORTANT HARBOR PLANS UNDER WAY

Chamber Committee to Urge New Bridge and Wide Channel

With active plans already under way for a movement toward extensive harbor improvements to bring the Oakland Inner Harbor to its highest efficiency, and with actual return on the city's harbor work already at hand in big warehouse business and the announcement that work will begin, at the United Engineering yards, at once, on the area of the largest vessels ever built in Oakland, the Harbor Development Committee of the Chamber of Commerce has outlined plans for its initial campaign.

Three important matters will be immediately pressed by the committee. The first of this is the move to substitute a modern quick-acting bascule bridge for the two antiquated turnstile bridges at Webster street. The next is a campaign for the widening of the channel in the estuary, and the last is a campaign to gain more warehouse space on the municipal quay wall.

Announcement by the Union Iron Works, now owners of the United Engineering plant, was made at the meeting of the Harbor Development committee this week that the plant would begin

construction work at once on three big vessels, two of 21,000 tons and one of 17,000 tons capacity. These will be the largest vessels ever launched in Oakland.

A BUSINESS UNIT.

"The essence of the case," said Chairman Harrison S. Robinson of the Harbor committee, "is that every large city is essentially a business unit. It is not for the purpose of setting someone aside by side. Yet, with that in mind, we must admit that Oakland is not well-balanced—it is lop-sided. We have to get more big industries, and more commercial activities in big units, which will be proportionately developed, and in condition to grow to any real greatness."

"To some of us Oakland's problem seems all political, to others all business, and to others all problems dealing with social welfare. But really all three are independent and closely related, and Oakland cannot treat with any one without taking cognizance of the others."

"One of the first questions factory men, planning to locate here, ask, is 'What kind of people have you?'"

"If Oakland wants more new money to come in, and more good, healthy business, she must show newcomers a reasonably good government and the existence of enough public opinion to enforce public spirit to insure attention to big problems."

"To be concrete: We have the estuary. The Government has put thirty feet of water in it. There is plenty of land along its margin—it is not used to one per cent of its capacity. But there are two monumental stumbling blocks in the path of its development. The first is the Webster street county bridge, and the next is the Webster street railroad bridge. The conditions are intolerable to land or water traffic. They must be removed. No one denies this."

"Another thing is the greater width of the estuary. The addition of 100 feet to an 800-foot channel on both sides of which shipping is docked will add 25 per cent to its efficiency."

"Third, for Oakland especially, is to get more warehouse facilities at the municipal quay wall. It can be done by its own knowledge that a five-story warehouse having the same floor area as the present one, and built just west of this, will bring a good commercial return."

THE BRIDGE PROBLEM.

"The matter of getting a quick acting bascule bridge across the estuary at Webster street is perfectly simple. An order of the United States Government, the facts justifying which can be easily produced, will compel the removal of the present bridges in the time specified in the order. Such an order can appear on the cost of the new bridge between the railroad companies using it, and Alameda county."

"The consummation of widening the estuary is still simpler. The only opposition, that of the municipality of Alameda, has been removed. The order of the war department will doubtless follow automatically."

"The warehouse matter can be taken care of by private capital or by the city. If Oakland does not want to pay any more money for such purposes there should be a referendum to determine public sentiment on the matter. If the city is opposed to spending the money some business arrangement could then be made by which a private company could erect this warehouse, subject to regulation as a common carrier, on a lease basis."

"Nature has done nearly everything for Oakland, except to provide wisdom and energy for its development. The question is, can the people of Oakland and Berkeley supply the deficiency? Personally, I think they can if they will."

"The meeting tonight of the Merchants' Exchange at the headquarters on Twelfth street, will be featured with a discussion of plans for July 4 celebration which will be given in Oakland this year under the auspices of the exchange. This organization has taken the lead in past years in the observance of this holiday, the celebration last year being the most successful ever held. The exchange will begin work immediately in the selection of committees and a number of spectacular features, never before seen in the West, will be given."

With the election of a new board of directors set for April, a nominating committee has been appointed and the new board will plan an active year for the exchange. At the big "get together" smoker held on Washington's birthday, plans were tentatively discussed for a new building of the commercial interests of the city and committees will be appointed at an early meeting to confer with similar committees of other organizations to decide upon a boosting campaign.

Exchange to Start on July 4th Plans

The meeting tonight of the Merchants' Exchange at the headquarters on Twelfth street, will be featured with a discussion of plans for July 4 celebration which will be given in Oakland this year under the auspices of the exchange. This organization has taken the lead in past years in the observance of this holiday, the celebration last year being the most successful ever held. The exchange will begin work immediately in the selection of committees and a number of spectacular features, never before seen in the West, will be given."

With the election of a new board of directors set for April, a nominating committee has been appointed and the new board will plan an active year for the exchange. At the big "get together" smoker held on Washington's birthday, plans were tentatively discussed for a new building of the commercial interests of the city and committees will be appointed at an early meeting to confer with similar committees of other organizations to decide upon a boosting campaign.

Mardi Gras Features at Pre-Lenten Dance

Much interest is being taken in the pre-Lenten dance which will be given at Knights of Columbus hall, 650 Thirteenth street, by the Young Ladies' Society of St. Leo's Church. The young women in charge of the hall have arranged a number of interesting Mardi Gras features and it is planned to make it the biggest of the social season. St. Leo's parish, the only Catholic parish in Piedmont, has given a number of interesting affairs this year and tonight's will be the last until after Easter, Lent beginning tomorrow.

Among the young women who are arranging for the dance are Miss Amy Thornton, Miss Loreta Donnelly, Miss May Keller, Miss Daisy Keller, Miss Grace Whalen and Miss Ethel Whalen.

SOLDIERS IN CRASH

MONTREY, March 7.—Private Young is in the Presidio of Monterey hospital with a compound fracture of the left forearm. Privates Finney, Dek and Peddy are in the guardhouse and Sergeant Ludwig is under arrest in quarters as a result of a bad auto smash-up, which occurred shortly after 5 o'clock Sunday afternoon at the west end of the Toro hill on the Salinas road.

Combing Won't Rid Hair of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffier, smoother, glossier, silkier and softer, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Advertisement.

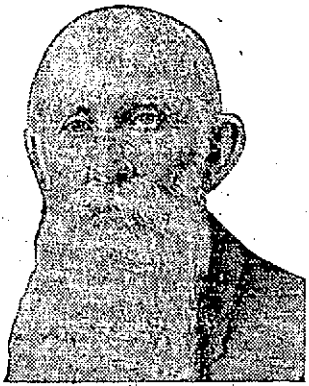

Healthy Old Age Brings Happiness

Simple Remedy Promotes Health By Overcoming Tendency to Constipation.

Advancing years impair the action of the vital organs. Old age should be the period of greatest happiness, but good health is necessary. Constipation should not be tolerated. It is often the direct cause of ill health.

Headache, belching, biliousness, bloating, drowsiness after eating and other symptoms of constipation can be readily relieved by the use of a simple laxative compound sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. Mr. J. H. Bristol, 1412 Geddes Ave., Ann Arbor, Mich., who is 85 years old, says "Dr. Caldwell's Syrup Pepsin is the best remedy I ever used for constipation, and I always have a bottle of it in the house to use when I feel the need of it. It never disappoints."

Dr. Caldwell's Syrup Pepsin is a mild laxative preparation, positive in its effect, acting easily and naturally without griping or other pain or discomfort. For over a quarter of a century it has been the standard household remedy to thousands of homes.

MR. J. H. BRISTOL

Druggists everywhere sell it for fifty cents a bottle. A trial bottle of Dr. Caldwell's Syrup Pepsin can be obtained, free of charge, by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Illinois.

TUESDAY, MARCH 7, 1916.

ROOSEVELT'S EXAMPLE.

Colonel Theodore Roosevelt, unchallenged national leader of the Progressives, has declined to permit his name to be used as a candidate for the Republican Presidential nomination by his friends in Illinois. The efforts of his supporters in Massachusetts, including Charles Sumner Bird and Representative Augustus P. Gardner, to rally a section of the Republicans behind the Colonel in the Presidential primary have been abandoned because the Colonel told these well-meaning gentlemen and their friends that he wanted nothing of these tactics. Colonel Roosevelt's secretary, J. W. McGrath, has been instructed to send similar notifications to every State where a movement develops to use his name as a Republican candidate.

Colonel Roosevelt has made no attempt to conceal his motives for this attitude. He does not wish to be the cause of any factional fights in the Republican party and he will not permit his name to be used to promote such an object. The idea uppermost in Colonel Roosevelt's mind, to the exclusion of any ambition he may entertain to be elected to the Presidency, is the defeat of President Wilson for re-election. He believes the national safety and the public interest require that the Democratic administration be turned out of office in November. He also knows that this object can be accomplished only by uniting all factions, and not by creating new divisions. And he is intelligent enough, and patriotic enough to rise above any petty, preliminary advantages which a handful of partisans in a State may bring him by using his name to identify themselves in the public eye. Friends and enemies alike must recognize that Colonel Roosevelt will not carry false colors. He has the Progressive flag up at present and will not hoist another to deceive the enemy.

It is a worthy example. It is just the opposite to the attempts of certain Progressives in California. The spectacle of the use of reversible and interchangeable "calls," in an attempt to divide the Republicans of this State, shows very mean and contemptible in the light of Colonel Roosevelt's example. The permanently attached Progressive organs in the State have precipitately and rather recklessly uncovered, if their services had been needed, the inspiration of Guy C. Earl's personally-conducted ticket of twenty-six (now reduced to twenty-four). They have limned with unerring hand the distinction between the Progressive boss of California and the Progressive leader of New York. Just how long desire for personal prestige and personal selfishness will smother patriotism and national service among the Progressive cliques in this State we do not know, but it is encouraging to find Republicans in other States getting ready with hearty willingness to meet the common enemy in November.

A HAYTIAN PROTECTORATE.

Without a dissenting vote the Senate has ratified the treaty with Hayti by which the United States assumes a financial protectorate over the Caribbean republic. The treaty was negotiated last summer, after an American naval force had restored order on the island and assisted in the establishment of the government of President d'Artiguenave. All the taxes of the republic are to be collected and disbursed by a receiver-general to be nominated by the President of the United States and appointed by the President of Hayti. Hayti agrees to make no increase in her public debt without the consent of the United States. To keep the peace a constabulary is to be organized, composed of native Haytians and officered by Americans. The treaty obligates Hayti to not surrender any of her territory to any foreign power.

Thus the present administration has increased the number of American protectorates by two. The treaty with Nicaragua by which we are to exercise control of that country's financial affairs was ratified ten days ago. With Cuba, Porto Rico, the Canal Zone, Nicaragua and Hayti, our interests to the south have grown to considerable dimensions during the last twenty years. They are all benevolent ventures in the main, and designed for the welfare of the people of the smaller governments as well as for the commercial and

strategical advantage of the United States. We hope they go on to full fruition and that no party in power will ever repudiate the original intentions and hopes as has recently been done in the case of the Philippines.

ANOTHER REVOLUTION BREWING.

Washington, according to reliable reports, is much concerned over the movements of General Felix Diaz, nephew of the late Porfirio Diaz, former President of Mexico, who is believed to be preparing to launch a revolution against General Carranza. General Diaz, who has been in the United States since the late President Huerta was forced out of office, has left New Orleans for Havana, Cuba. Ever since Ex-President Huerta returned to this country from Europe and was suspected of planning a revolution in Mexico, Felix Diaz has been under close surveillance by secret service men and the Department of Justice has been tolerably well-informed of his movements. Several well-known Mexicans are already in Havana, among whom are Teodoro Dehesa, former governor of Vera Cruz, and General Aureliano Blanquet, war minister under Huerta.

General Diaz presumably is headed for the State of Oaxaca, in the southern part of Mexico. There conditions are favorable for starting a fresh revolution. It is Diaz's native State and the only one which has kept out of the fighting of the last two years. The people declared their independence of all factions and informed Carranza and other leaders that they would be glad to resume their place in the union when a stable government was restored. Carranza, after his recognition by the United States, demanded that Oaxaca accept his government unconditionally. He has sent punitive expeditions against the State and the people and officials are preparing to resist.

What General Diaz might do with the nucleus of an army already formed in Oaxaca remains to be seen. There are reported to be 25,000 men available, but they are poorly equipped and almost entirely without artillery. It may be a bit ungenerous to anticipate trouble for Carranza's government, but the fact that Felix Diaz is the leader of the Cientificos, the faction in control in Mexico for thirty years, and is a man of power in his native State and counts numerous influential supporters in all parts of the republic it must be seriously reckoned with.

PHILIP DRUE—ALIAS HOUSE.

We have with us a new author, and a new novel. "Philip Drue, Administrator," is the novel and the author is none other than Colonel Edward Mandell House, President Wilson's confidential advisor and private envoy extraordinary to the imperial and royal courts of Europe. The authorship of this story has until now been unknown, although there is the statement on the cover that the author is a man prominent in political councils, and further, "His pages are full of facts known only to the inner circle of statecraft and finance. His story shows how the seething radical elements in the political cask today, under the pressure of rising prices for the poor and greater privileges for the rich, literally burst into one great conflict, the second civil war, out of which rises Philip Drue, who shapes the future of the nation." That should have identified him long ago.

Our hero in time—the story covers the future period of from 1920 to 1935—becomes dictator and is styled General Drue. He revises the judiciary, which is the "most complicated, expensive and inadequate of any civilized nation"; regulates "federal corporations," every one of which must have its own board of directors; the railways, which were dishonestly built and fraudulently administered; the stock and cotton exchanges, and completely revises our constitution, which "after the first hundred years became obsolete and even grotesque." In a serious diplomatic crisis he hits upon the idea of a great navy and finally he organizes an army of 400,000 men and goes down to conquer Mexico and establish a new republic.

The authorship of this book was discovered the other day in Washington through an autographed copy belonging to Senator McCumber. Has this fantasy become the oracle of President Wilson, and does it account for the author Colonel House, who dreamed of being a "general and dictator," being chosen as unofficial assistant to the President? Some reason must be given in history for the astonishing performances of Colonel House and President Wilson and it may as well be this as any other.

Representative Claude Kitchen, speaking for the Democratic majority in the House, called upon the war to justify the repeal of the free sugar provision of the Underwood tariff law. After showing that the sugar tariff brought the government \$44,154,100 in revenue for the fiscal year ended June 30, 1915, Mr. Kitchen says: "Had the normal conditions existing at the time of the passage of the act of October 3, 1913, not been disturbed by the European war it would not have been necessary to continue the present rates of duty on sugar after May 1, 1916." Before any further attempts are made to hold the war responsible for the failure of the Democratic revenue measures the administration ought in all conscience promulgate a denial of Mr. Redfield's statement that the war has had absolutely nothing to do with our trade balance.

NOTES and COMMENT

Lord Northcliffe's observation that Americans read too much and think too little may not be entirely inapt.

The beagle hunters got another jackrabbit last Sunday. Great sport—and different.

Rev. Josiah Sibley of San Francisco says Senator Gore of Oklahoma told a "white lie." This is too long range to be real interesting.

The Washington street car strike compels the solons to walk, during which exercise some of them may cool out.

Births in California were much in excess of deaths during the month of December. This county had 122. We might have done better.

House is back and will report. The country at large is at least entitled to know whether Europe is likely to have an early spring.

Occasionally Congress needs to be reminded of that good old saying—"United we stand; divided we fall."—Sacramento Bee.

Electricity from a Massachusetts man's arm started a fire that did great damage. Ischl, with his feat of rubbing sticks, is a tame story in comparison.

The girls who started on a hike to Montana have reached Antioch, where they struck a job packing asparagus. It would be difficult to weave a romance out of the venture so far.

The claim is made that Twin Peaks road will still be known as Twin Peaks road and not St. Francis boulevard. If so it can't be helped. Let the excitement die out.

When a man can shoot a policeman on a crowded thoroughfare and escape it is not so difficult to understand how Dick Turpin got away with it so long.

The Fresno Republican declares the Senate vote on the Gore resolution to be a "phyrric victory." Which expression might be called a sort of catarrhic journal.

Ungodly item from the Hollister Free Lance: "There is, of course, danger of catching the grip at church Sunday morning, but it is perfectly safe to go to the dance Monday night."

It need not be said that the Oakland woman who proposed to John D. Rockefeller should be held for observation. She has already been observed. Her feat has gained a place in all the papers.

A woman correspondent inquires, "Why not have women care for our streets?" This is a job that it was not known that many women bankers for, but any who feel that way should go to it.

The efforts of trainmen to show how their employers will get more service from an eight-hour day than from a ten is another form of that logic that proves a thing against great odds.

Why doesn't society and its beagles take to hunting the coyote? Not only would it thus stalk real animals and not rodents, but it would realize a profit—\$2.50 a scalp—which it might give to the Belgians if there were no worthier use.

The Republicans, those taking the lead, show great judgment, in failing immediately to work and not stopping to bandy words. And there is great temptation to voice the loyal opinion of the recent attempt to subvert the party organization.

Rev. Slaughter of Chico, whose trial on a statutory charge begins at Oroville today, is no shrinking flower. From his pulpit on Sunday he advised his friends to take the first train, otherwise they might not "be able to get in the courtroom."

The San Francisco policeman who shot up a car while drunk, narrowly missing the conductor, has been suspended by the chief, but is at liberty through the order of a police judge. However, he is to have a hearing before another police judge. He is being put to a lot of trouble just for nothing.

Frank P. McLennan of Kansas, who has been here, writes to his newspaper, the State Journal of Topeka, like this: "We would not exchange the wheat and corn and alfalfa of Kansas for the oranges and lemons and grapefruit of California; nor our weather for theirs." Well, where all hands are so well satisfied there seems no basis for a swap, though it were otherwise possible.

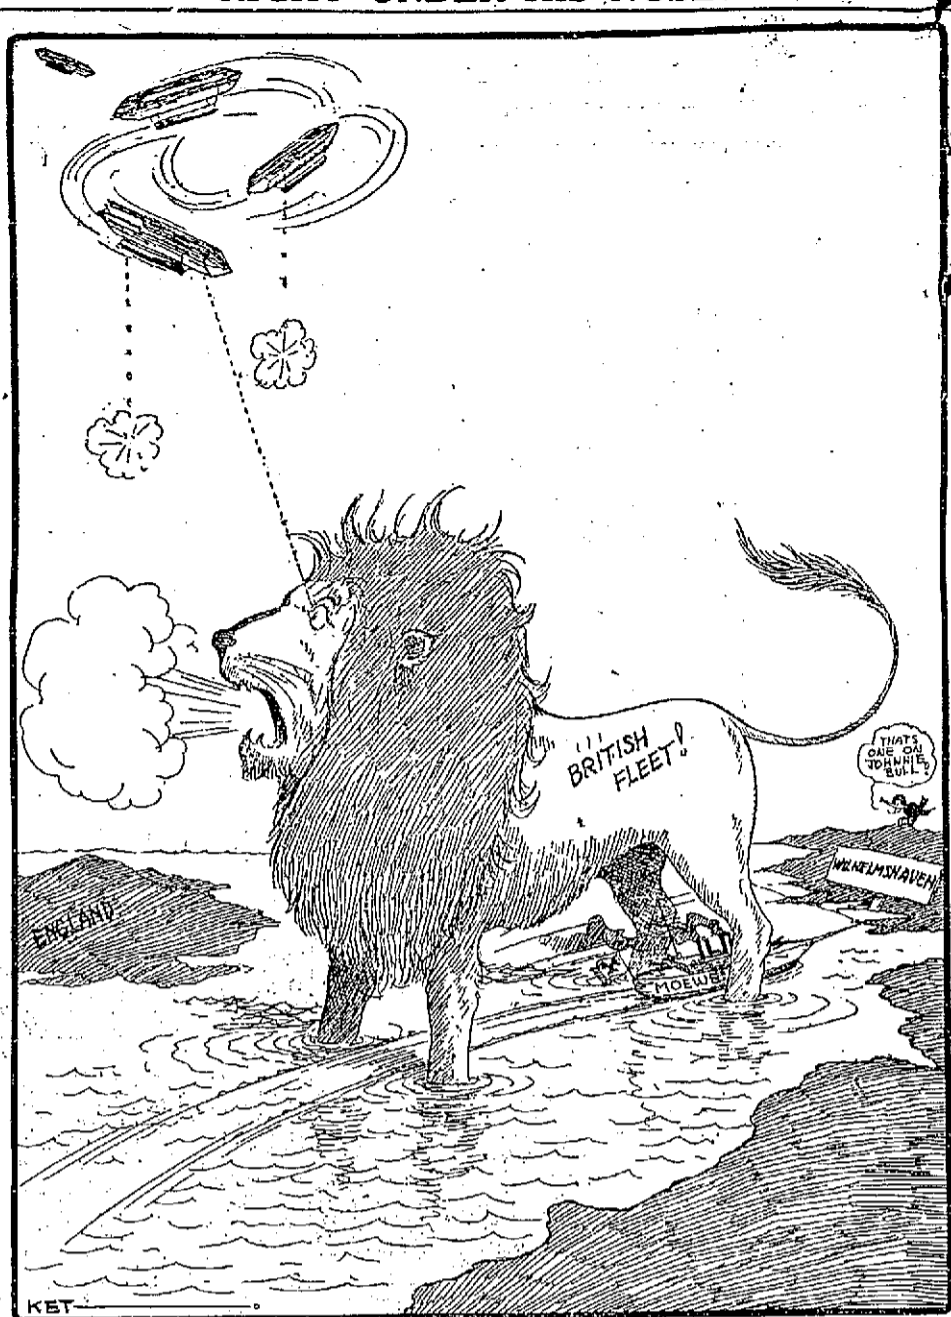

California affords the sole example of returning Progressives seeking to capture the party works on their return to the Republican fold. In all other states their movement has frankly collapsed and Progressives come back as individuals or in small squads, with no stipulation and even repudiating their fealty. The Chicago Tribune, the only newspaper of national character that unreservedly espoused the Progressive cause, is back in the regular ranks, seeking no reward, but earnestly striving for Republican success.

BOSTON.—If there were nothing else in the world exciting, perplexing, irritating and yet engrossing even if hopeless there would always be an attempt to interpret or should we say decode—the language of Boston.

One Sabbath evening, a week or so ago, Boston in mass meeting assembled adopted a series of resolutions. The fact that man has a nervous system makes doubtful the consideration of more than part of one of the series. We quote: "Resolved, That we, American citizens, spiced from the horrors of war by conditions which we cannot attribute to our own virtue," etc.

We sometimes are tempted to believe that Boston uses language for no other purpose than to advertise its humility. New York Sun.

RIGHT UNDER HIS NOSE!

PATRIOTISM-AND AMERICANS

By LYMAN ABBOTT

A nation is made great, not by its fruitful acres, but by the men who cultivate them; not by its great forests, but by the men who use them; not by its mines, but by the men who work in them; not by its railways, but by the men who build and run them. America was a great land when Columbus discovered it; Americans have made of it a great nation.

In 1776 our fathers had a vision of a new nation "conceived in liberty and dedicated to the proposition that all men are created equal." Without an army they fought the greatest of existing world empires that they might realize this vision. A third of a century later, without a navy, they fought the greatest navy in the world that they might win for their nation the freedom of the seas. Half a century later they fought through an unparalleled Civil War that they might establish for all time on this continent the inalienable right of life, liberty and the pursuit of happiness. A third of a century later they fought to emancipate an

oppressed neighbor, and; victory won, gave back Cuba to the Cubans, sent an army of schoolmasters to educate for liberty the Filipinos, asked no war indemnity from their vanquished enemy, but sold him liberally for his property. Men who would live upon and cultivate the land, opened to foreign immigrants on equal terms the door of industrial opportunity, shared with them political equality, and provided by universal taxation for universal education.

The cycle who can see in this history only a theme for his egotistical satire is no true American, whatever his parentage, whatever his birthplace. He who looks with pride upon this history which his fathers have written by their heroic deeds, who accepts with gratitude the inheritance which they have bequeathed to him, and who highly resolves to preserve this inheritance unimpaired and to pass it on to his descendants enlarged and enriched, is a true American, be his birthplace or his parentage what it may.

PACIFIC COAST DEFENSES

Representative Stephens of California, at a recent meeting of the House naval affairs committee asked Rear Admiral Badger, of the naval general board, if the policy that the navy should equal the strongest fleet afloat by 1925 had not been evolved in view of the possibility that it might be necessary for the United States to face two enemies simultaneously, one in the Pacific and one in the Atlantic. While Admiral Badger admitted that he could answer the question very readily, he felt that he should not do so in "open court," and the inquiry went unanswered. Nevertheless, it is a matter of common knowledge that the chief argument made in favor of spending nearly \$500,000,000 on the Panama Canal was that it would double the efficiency of the United States navy. Rear Admiral Badger is right when he says that the navy general board never suggested that the American fleet be divided between the two oceans, but the suggestion was made in Congress repeatedly. Now it is admitted by the experts of the navy that the Panama Canal has failed to solve the problem of defending both the Atlantic and Pacific oceans with one battle fleet. Defense of the Pacific coast requires a fleet there able to dominate that ocean. The present slides in the Panama Canal will be cleared away and traffic will be resumed. No one can say, however, that the slides can be stopped for all time. And there would be disastrous consequences if on the eve of war, when the United States happened to be depending upon the canal to get part of the Atlantic fleet into the Pacific, the slides should again interrupt traffic.

While the isolation of the United States has always been considered a factor in favor of the defense of the nation, it is nevertheless true that there is a double responsibility in protecting two coasts covering such extensive mileage. At its present strength Rear Admiral Badger said the battle fleet should be kept in the Atlantic as a unit.

The testimony of Admiral Badger probably is the most important that has been given in the House naval affairs committee. It shows the need for a definite naval policy with reference to the Pacific ocean. Since it must be a matter of years before defense can be provided, wisdom dictates the early formation of a definite policy.—Washington Post.

TWENTY YEARS AGO TODAY

The co-eds of the University of California have been assisting in the work of improving the college grounds by planting flowers, vines and trees.

The engagement is announced of Miss Josie Barnum, daughter of Mr. and Mrs. N. C. Barnum, to Edward Spaulding.

Mrs. H. G. Kennedy gave a pleasant party in honor of her daughter's birthday at her home, 820 Tenth street. Among those present were Misses Clara and Edith Morris, Miss Geraldine Scupham, Miss Florence Mayhew, Miss Pauline Schultz, Miss Flora Fenner and others.

The club of the "Twenty-ninth" gave a dance last evening in Military Hall. Mrs. Al White and Mrs. McDermott acted as patronesses.

The Daughters of Liberty entertained the representatives of the State Council, Junior Order United American Mechanics, yesterday afternoon at an elaborate banquet.

PERSONALITIES.

Eugene Bowerman, a well known trotting horse trainer, was found dead in bed at his home in Lexington, Kentucky, late yesterday. According to the coroner death was due to heart trouble. Mr. Bowerman was 46 years old and a son of Mike Bowerman.

Lieutenant Joseph C. King of the Seventh United States Cavalry, stationed at Douglas, Ariz., has been detailed as the new commandant of cadets at the University of Missouri, it was announced today. He will succeed Lieutenant Charles McHenry, recently assigned to Fort Ogilthorpe, Ga.

M. Malovsky Malavitch, Russian Ambassador to Japan, has been recalled owing to reasons of health, says a dispatch from Petrograd.

WAY TO GET BRYAN.

The Security League's challenge to Mr. Bryan to debate with Mr. McCallan on preparedness has not, up to this moment of writing, been accepted by the peace-at-any-price advocate. The rulebook and surest way to get Mr. Bryan is to challenge him, but to offer him Chautauqua rates. Peace at any price and peace at Chautauqua prices are very different propositions.—St. Louis Post Dispatch.

THE JESTER

In 1916.

"Who is that haughty and aristocratic dame?"
"Sah! A real personage. Regent of the Descendants of the Ford Peace party."
—Louisville Courier-Journal.

Those Women.
Patience—She has a pretty mouth.
Patrice—A more incident.
"Yes, but one that is never closed."
—Yonkers Statesman.

A Deep One.
Johnny stood beside his mother as she made her selection from the huckster's wagon, and the farmer told the boy to take a handful of cherries, but the child shook his head.

"What's the matter? Don't you like them?" asked the farmer.
"Yes," replied Johnny.
"Then go ahead and take some."
Johnny hesitated, whereupon the farmer put a generous handful in the boy's cap. After the farmer had driven on, the mother asked:
"Why didn't you take the cherries when he told you to?"
"Cause his hand was bigger'n mine."
—Christian Register.

Johnny Reads the War News.
"What is a counter attack, pa?"
"When your mother goes shopping, Johnny."
—Judge.

Saves Home to Aid Stork.
Mayor Sebastian was called early in the afternoon by a woman living along the arroyo, near Avenue 43, who said that the stork is expected at her house soon, and she was afraid the flood would sweep her house away before the interesting bird arrived.

"I know you will do something for us," the woman said.
And the mayor did do something. He called Commissioner O'Brien of the Board of Public Works, and within an hour a gang of men had attached cables to the house and thrown up a temporary embankment, which diverted the flood from the little cottage.—Los Angeles Times.

THE WOMAN'S PART.

So it has come at last, you say—the call! I did not know. Nor can I realize the truth, at all; But when you go, No hand but mine your gleaming sword shall take.

Down from its place, That you may wield it well, for honor's sake,
A little space.

A little space, perhaps; yet it may be, Since God is good, That He will send my soldier back to me—

(Ah, that He would!) But in the meanwhile, soldier-lover, see How keen this blade! Strike deep, lest Justice, Truth, and Liberty Shall stand betrayed.

I am for peace—and fair, love, would I lie In your dear arms, Knowing myself, while happy moments fly,

Safe from all harms; I am for peace—but when a tyrant bids Shall lift to smite And menace our beloved native land With evil might,

Then I can say farewell, and watch you go To do your part, Cheered by my Godspeed; for no tears shall flow.

(Lie still, my heart!) And he our parting one of endless length, Or briefer while— Were it our last kiss—God would give me strength Dear Heart, to smile.
—Beatrice Barry—N. Y. Times.

FRIVOLITY'S
DAY AT END;
LENT BEGINSSpecial Ash Wednesday
Services Planned in
ChurchesWeek's Mission for Men
Will Be Held at
St. Mary's

All that's gay and frivolous—parties, dances, amusements—is out of order. Tomorrow Lent begins.

The forty days of the pre-Easter season are at hand. Tomorrow, Ash Wednesday, opens the season when gaiety and mirth in too large doses are taboo, and religious meditation and thought are in order, according to the churches of the land.

Special religious services are planned in many of the Oakland churches for the Lenten period. At Calvary Church Rev. Roy H. Campbell is planning a series of pre-Easter sermons, urging his congregation to prepare spiritually for the church feast day, as well as preparing clothes for the day.

The celebration of Lent will commence tomorrow at St. Mary's Church with the Ash Wednesday service. The ashes will be distributed at the noon mass. There will be other masses at 9 o'clock and at 7 o'clock. The ashes are from the cremated palm of the past year and were blessed on Palm Sunday. The ceremonial of placing the ashes on the heads of members of the congregation is a reminder of the penitential spirit of the Lenten season.

MISSION FOR MEN.
The evening service at St. Mary's tomorrow will consist of devotionals, a sermon by Rev. E. P. Dempsey and the benediction. On Sundays, Wednesdays and Fridays during Lent there will be special services.

A special feature will be a one week's mission for men, commencing at St. Mary's Sunday. This will be under the auspices of the Fathers of St. Dominic, Rev. J. S. Connolly of New York and Rev. J. Barratt, of Dublin, both famous missionary workers, will direct the affair. Elaborate musical services and other features for Lent are in preparation by other churches of Oakland, and practically every Catholic and Episcopal church tomorrow will have some sort of a recognition of the opening of the Lenten season.

LECTURE ON BIBLE.
At St. Paul's Episcopal church tomorrow Rev. H. H. Powell will lecture on the Bible. At 10 o'clock in the morning communion will be held and at 7:45 special services including the Bible lectures held. On Monday, Tuesday and Friday of next week half-hour devotionals under the direction of Rev. Alexander Allen will be held.

At the First Congregational church tomorrow evening at the prayer meeting reminder will be given of the Lenten season, but no special activities are planned for it. At the first Baptist church observance will be made of Good Friday.

At St. Francis De Sales, in the morning at 9 o'clock ashes will be distributed, and in the evening at 7:45 services will also be held. Father P. J. Keane will be in charge. Distribution of ashes will be held at St. Patrick's and the other Catholic churches.

In the Episcopal chapels the beginning of Lent will be observed with the usual services for the occasion.

SERVICES AT ST. PETER'S.
At St. Peter's church Rev. Edgar P. Geo has prepared a full program for the pre-Easter services. Tomorrow communion, prayer and litany and a sermon, will compose the morning services, and an evening service will be held at 8 o'clock. The other plans scheduled include:

Sundays—Holy Eucharist and sermon, 8:00 a. m.; morning prayer, litany and

INVADERS REALM OF ARCHITECTURE

CO-ED, WHO HAS INVADERS
FIELD OF ARCHITECTURE.Dorothy Epping
Takes Up Course
in Designing

Law and medicine and even pharmacology and dentistry have felt in recent years the access of feminine practitioners. Now architecture is the newest field to be invaded, and the University of California is assisting in the invasion.

There is a particular reason, believe the professors in the college of architecture, why women cannot design as beautiful buildings as men, only they have never done so.

Miss Dorothy Epping, a junior student in the pre-architectural course, is among the many women in the university who may one day hang out

sermon, 11:15 a. m.; evening prayer and address (illustrated by stereopticon), 7:30 p. m.

Week days, holy communion, Tuesday, Wednesday and Friday, 8:00 a. m.; Thursday, 11:15 a. m.; evening prayer and litany, Wednesday and Friday, 8:15 a. m.; evening prayer, Tuesday, Wednesday and Thursday, 4:30 p. m., with devotional reading; Friday with sermon, 8:00 p. m., subject in course: "The Lord's Prayer."

Good Friday—Morning prayer, litany and after service, 10:00 a. m.; evening prayer, 3:00 p. m.; service of preparation for communicants, 8:00 p. m.

Easter Day—Holy communion, 7:15 and 9:00 a. m.; choral eucharist and sermon, 11:15 a. m.; children's eucharist and sermon, 3:00 p. m.; choral eucharist and sermon, 7:30 p. m.

PROFESSORS TO SPEAK.
The observance of Lent in Trinity Episcopal church parish of which the Rev. Clifton Macon is the rector, will be marked by three special lecture courses, one of which will be given in the Parish church on Wednesday evenings, at 8 o'clock by Professor Murkotten on "Crisis in the Life of Christ," as follows:

1. Introductory: "We all, with unveiled face behold... the glory of the Lord, are changed into the same image."—II. Cor., 3:18.
2. The Holy Jesus Among the Doctors.—Luke 3:40.
3. The Baptism and Temptation.—Heb. 4:15.
4. In the Synagogue at Nazareth.—Luke 4:21.
5. The First Christian, "Thou art the

their shingle, design imposing structures and make their blue prints alongside of the men.

Several women students in the department are disclosing evident talents along these lines. Most of them are combining their arts of art study along with architecture and giving evidence from time to time of their ability in such work as well. The Pelican and other campus publications have featured almost as many sketches and cartoons by women as well as by men.

With Miss Epping it was a question of which of several arts to which her talents were directed she should choose. Those who saw the Parson's sketch last year in which she was the solo dancer, were insistent that the terpsichorean realm was hers by every right. But Miss Epping has chosen the quieter art instead, and is applying even that to Parthenia aid, designing a poster, and many of the costumes for "Aranyani of the Jasmine Vine."

Christ, the Son of the Living God."—Matt. 16:16.

6. The Rising of Lazarus.
7. The Garden of Gethsemane.
8. The other two will be delivered in Holy Innocent's Chapel of which the Rev. Samuel Mills is vicar and will be by the Rev. H. H. Powell, D. D., of the Church Divinity School San Francisco on "The Bible, Its History and Literature," the subjects being the following:

March 8, Introduction; March 15, The Pentateuch; March 22, The Prophets; March 29, The Writings; April 5, The Apocrypha; April 12, The Gospels; April 19, The Epistles.

These will be given on Wednesdays at 8 p. m.

The Rev. Thomas Parker Boyd of the Immanuel Institute, San Francisco, will on Sunday evening at 7:30 give a course on "The Fine Art of Being Well." The following are his subjects:

March 12, The Source of Health; March 19, The Spiritual Way of Health; March 26, The Mental Way of Health; April 2, The Material Way of Health; April 9, Methods of the Master; April 16, The Church's Message of Health.

These will be given on Wednesdays at 8 p. m.

PRODUCE MARKET
SITE NOT CHOSENMatter Narrows Down to Two
Locations; Choice Expected Soon.

The matter of a site for the proposed new wholesale produce market has narrowed down to two locations, and choice between these will be made in a few days. No definite conclusion was reached at the meeting of the Commission Merchants' Protective Association last evening, but discussion was general and spirited, with a better prospect of speedy agreement than has been the case at any recent meeting. That there might be something more definite upon which to take action a committee of five was appointed to look into the advantages and disadvantages of the sites proposed and submit a report with recommendations to the next meeting of the association. The committee comprises George W. Hatch, C. W. Gallagher, Julius Zealner, George Ginn and Edward White.

The two locations, one of which will probably be chosen, are located between Second and Third streets, one on Franklin and the other comprising the block between Harrison and Alice streets. The report of the committee is expected to set forth the amount of work necessary to make either of these places suitable for the market.

The West Oakland sites discussed for some time have now been abandoned. A site on Grove street, between Third and Fourth streets, toward favor with many of the dealers and would probably have been chosen had not the Board of Education intervened with positive objections to the location so near a school and which pupils would be compelled to pass several times daily.

Even if an agreement to move to any definite locality is at once reached, it is not likely that the commission men will be ready to move by May 27, the date fixed by the city council, and it is probable that an extension of time will be asked. It is stated that either of the locations would require the running of a street through the block and much remodeling before a suitable place for market purposes, and this would take a much longer time than remains.

ELECTION QUITE.
SEATTLE, March 7.—Rain and lack of interest in the contests combined to make this the quietest city election day in many years. Polls opened at 8 a. m. and will close at 8 p. m.

TO INCREASE WAGES.
TACOMA, March 7.—The Fir Tree Lumber Company, located at Rainier, announces an increase of 10 per cent in wages, effective March 15.

MILK SURVEY
MADE FOR
BABY WEEKCity Uses 12,000 Gallons
Daily; Most Is
PasteurizedLiquid Should Be Heated
at Home Before Giving
to Infants

Oakland uses daily more than 12,000 gallons of milk, according to an article issued today by one of the staff of the Baby Hospital in the Baby Welfare Week Campaign being carried on by the club and church women of the city under the auspices of the Children's Bureau at Washington and the general federation of women's clubs.

These figures show the importance of the milk question as it concerns babies, their health and their welfare. Oakland's daily consumption of the fluid is as follows: certified milk, 250 gallons; pasteurized milk, 5583 gallons; unpasteurized milk, 5583 gallons; pasteurized cream, 300 gallons; unpasteurized cream, 58 gallons.

The milk article says in part: "Certified Milk is the highest grade of milk obtainable. Inspected milk is the second grade milk and is produced under authority of a municipal health board from cows tested annually for tuberculosis. No lesser grade of milk should be used raw."

RENDERS BACTERIA INERT.
"Pasteurized milk is milk which has been heated for twenty minutes to a temperature of 140 degrees Fahrenheit. This temperature is sufficient to render inert most harmful bacteria which are ordinarily found in milk. If dependable, it would render milk, if otherwise suitable, bacteriologically safe, but as is present commercially practiced, pasteurization is often not dependable. The process is difficult of uniformly satisfactory application, and proper legal supervision is as yet lacking. All milk, except certified or inspected, should be heated in the home to a point sufficient to inhibit harmful bacterial activity."

"The objections formerly urged against heated milk are now known to be without merit, and milk so treated in the home will never transmit tuberculosis or other disease to the children of the household. Raw milk is risky milk."

EXHIBIT RECEIVES ATTENTION.
The baby welfare exhibit in the clinic room of the Baby Hospital is receiving much attention, many men and women calling at the place each day and learning lessons from the demonstration. An expert demonstrator is on hand to explain the charts and answer questions. This exhibit is to be sent around the county, from town to town and from one women's club to another, at the close of the week.

The public library is co-operating in the Baby Welfare week campaign. Librarian Charles S. Greene today gave out a list of thirty-one books on the care of babies which are available at the local library.

The Baby Welfare Week demonstration in San Francisco was opened yesterday with a luncheon in the Bellevue hotel at which representatives of the State Federation of Women's Clubs, the Associated Charities, the State Board of Control and the San Francisco Board of Health were present. There were many speakers and the initial meeting was a success in every way. Dr. William Hassler, of the Board of Health, said that more women than men and that children are less prevalent now than formerly.

A Baby Welfare Exhibit has been installed in the clinic auditorium, where the headquarters of those in charge has been installed.

Photo Causes
Tarpey Tangle

An innocent photograph of the home of an Oakland musician caused much trouble in Australia. The home and the picture were the property of Paul Steindorff, and the trouble caused by them fell upon the shoulders of Mrs. Arthur Tarpey, wife of the wealthy Fresno and San Francisco physician, who arrived on the steamer Sonoma from Australia yesterday, accompanied by her two children.

Steindorff has a German friend. In Australia, while Mrs. Tarpey was there on a visit to her mother Steindorff forwarded to her the picture of his cottage, saying that she show it to his friend. The censor opened the letter with the photograph. He saw the name Steindorff. That was enough.

Secret service men, working in the latest apparel of Sherlock Holmes fashion, took the trail. Mrs. Tarpey was accosted with the picture, and the German name. She explained. She was doubted. This continued for two months.

Finally Mrs. Tarpey demanded the return of the picture saying she would tear it up and settle the argument. But, no, that wouldn't do, said the officials. There must be a German plot, deep laid, in this thing.

Mrs. Tarpey's history was investigated. It was learned that while she was a native of Australia, she was the wife of an American citizen. The secret service sleuths did not believe her even when their own minister of external affairs upheld her contention. So she went to American Consul Britton. He promised to place her aboard the Sonoma.

At sailing time he marched with her to the gangplank. Soldiers barred their way until Britton demanded that they make room for an American citizen. Then the soldiers stood aside, and Mrs. Tarpey went aboard.

SAYS WAYS
OF SPEEDERS
ARE ELUSIVEWomen Autoists Never
Know When They Go
Too FastExcuses Offer Opportunity
for Psychological
Study

"Speeditis" is like kleptomania with women—they don't seem to realize they are doing anything wrong."

Deputy District Attorney M. J. Clark has arrived at this conclusion after studying the psychology of women motorists.

Here are some of the excuses for road-burning advanced by fast-scooters and upon which Attorney Clark bases his deduction:

"But, Judge, how can I tell I was speeding? The speedometer was broken?" asked a highly indignant young woman who was caught passing mile-stones to the number of forty-five an hour.

"I haven't been treated fairly; the speed officer led me into a race and then showed his star," complained another fair defendant.

"Coasting isn't speeding; my engines were shut off and I was

SALE PRICE \$1.35 EACH

This represents a new process of covering pure prints with a finish that so closely resembles a true oil painting that even experts are in doubt for a short time as to the classification of the picture.

READY FOR CHICAGO TRIP

CAPTAIN "BILL" LAUGHLAND OF THE OAKLAND GOLDS AND ED. STREET, THE NATION'S MOST SENSATIONAL FORWARD, MEMBERS OF THE BASKETBALL TEAM WHICH WILL BE SENT TO CHICAGO BY MEANS OF TONIGHT'S MONSTER TOURNAMENT.

Millard Peterson Wins County Title for Berkeley

"Millard" Peterson, known to his team mates as "Pete," won the Alameda County Athletic League basketball championship for Berkeley High School at the auditorium over their bitter rivals, Fremont High, yesterday afternoon. "Pete" threw two field goals in the last minute of play, the last from the center of the court, which overcame a four-point lead and enabled the Red and Gold to defeat Fremont by 24 points to 23. The marvelous part of "Pete's" work lies in the fact that up to the time when he began his shooting Peterson had not thrown a goal. He had scored every basket when, with about a minute to go, he had scored a pass and shot the ball clean through the "hoops."

That made the score 23 to 22 with Fremont in the lead. Just a few seconds later "Pete" again got hold of the ball and from the center of the court, he scored another goal. A few more seconds and the game was over and Peterson was being carried on his schoolmates' shoulders to the center of the court.

As for the game, it was all Fremont's up to the time Peterson got started.

SPLASHERS READY FOR BIG MEET

Entries for the coast championship swimming meet in Sutter Baths Friday evening were made public today and indicate that the meet will be one of the most representative. Frances Covells and Lady Langer are here from Honolulu and will compete. Two teams from this side of the bay will compete in the 300-yard open relay, entries for which are:

Oakland Club No. 1 team—O. Conna, H. C. Jensen, N. D. Ross, E. M. Smith, E. K. Booth.

Stanford University—A. Goldsmith, A. Pinnaman, A. Cunniff, E. R. Coughlin, E. Kirksey, L. E. Peckler.

University of California—G. M. Lindsay, T. J. McBarrow, C. H. Lewis, L. Langer, R. B. Biddle.

Sanderson, C. E. Schroth, O. Miller.

Olympic Club, No. 2 team—H. F. Garra.

CLOSE FIGURED GAME

NEW YORK—In the closest game thus far of the national amateur basketball championship tournament here, Francis S. Appleby last night defeated J. Ward Rogers by a score of 40 to 34. Appleby, who was more than fifty points behind in the forty-third inning, caught up and passed his rival.

The scores:

Appleby, 40; Rogers, 34. High runs, 50, 45, 41.

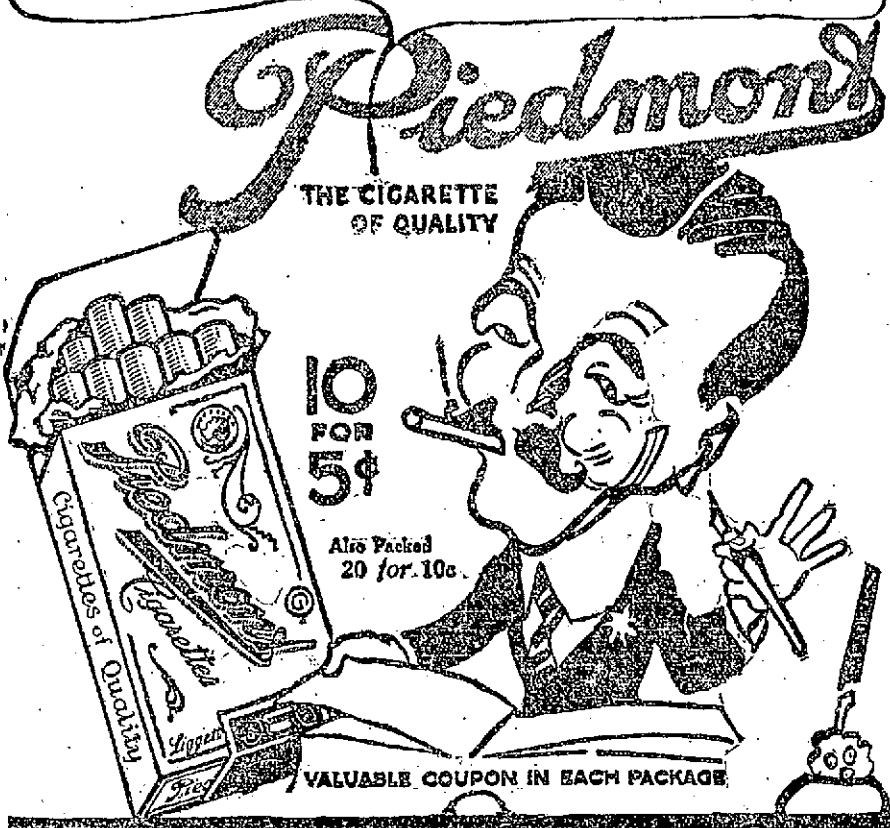

Ward Rogers, 34; average, 8 10-45; high runs, 75, 54, 51.

VACAVILLE BEATS ST. VINCENT

VALLEJO, March 7.—Vacaville basketball team defeated the St. Vincent's High School quintet in the up-valley town 29 to 19. It is the first time that the two sides will play return contest.

LEGAL NOTICES

RESOLUTION OF INTENTION

RESOLUTION OF INTENTION TO IMPROVE AND RE-ESTABLISH THE CURB GRADATIONS ON BECK STREET, BETWEEN 17TH AVENUE AND CHURCH STREET.

RESOLVED, That it is the intention of the Council of the City of Oakland to order the following street work to be done in said City in accordance with the provisions of the Improvement Act of 1911 of the State of California, and in accordance with the plans and specifications adopted for this street by said Council by Resolution No. 12217 N. S.

That 2nd Street, from the eastern line of Webster Street to the eastern line of Alice Street, be graded curved with granite, guttered with brick gutters, fourteen inches wide, and paved with asphalt; also that four brick catch basins with cast-iron tops be constructed in 2nd Street, one in each quarter of the northern halves of the crossings of Harrison Street and Alice Street; also

That three vitrified pipe conduits, having internal diameters of ten inches, be constructed in the above described crossings, one from each of said catch basins to the crossing of Alice Street to the existing manhole therein, distant 30 feet northerly from the southern line of 2nd Street; and one from said catch basin in the northeastern quarter of the crossing of Harrison Street to the existing manhole in said crossing of Harrison Street, distant 30 feet northerly from the southern line of 2nd Street; also

That the construction of curb on the southern side of 2nd Street from 62 feet to 72 feet, from 102.2 feet to 114.2 feet, from 124.8 feet to 133.8 feet, from 215.8 feet to 233.8 feet easterly from the eastern line of Webster Street, and from 97 feet to 116 feet westerly on the western line of Alice Street; also

Executing the grading of all sidewalks.

In this resolution whenever a distance from a line is given the distance measured at right angles to such line is meant.

This Council hereby determines that said bonds shall be payable in equal annual assessments of \$25.00 or over for the cost of said work and improvement; said serial bonds shall extend over a period ending five years from the 2nd day of January next succeeding the date of said bonds and an even annual proportion of the principal sum thereof shall be payable by coupon, on the 2nd day of January every year after their date until the whole is paid, and the interest shall be payable semi-annually, by coupon, on the 1st day of January and July respectively of each year at the rate of 7 per cent per annum on all sums unpaid until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with said Improvement Act of 1911.

Notice is hereby given that Thursday, the 23rd day of March, 1916, at twenty-five minutes after 11 o'clock A. M., is hereby fixed as the day and hour, and the Council Chamber in the City Hall, Oakland, California, as the place when and where any and all persons having any objections to the above described proposed street work may appear before said Council and show cause why said proposed street work should not be done in accordance with this resolution.

The Oakland Tribune is hereby designated as the daily newspaper published and circulated in said City in which this Resolution of Intention shall be published. The Clerk of this Council is hereby directed to publish this Resolution by two successive insertions in said newspaper and to post the same for two days consecutively on or near the chamber door of this Council.

I certify that the foregoing is a full, true and correct copy of a Resolution passed by the City Council of the City of Oakland, Cal., on March 3, 1916.

L. W. CUMMINGS, City Clerk.

LEGAL NOTICES

NOTICE OF SALE OF REAL PROPERTY.

DELINQUENT FOR NON-PAYMENT OF STREET IMPROVEMENT BOND NO. 105, SERIES NO. 97, OAKLAND, CALIFORNIA.

WHEREAS, default has been made in the payment of an installment of principal and interest due on Street Improvement Bond No. 105, Series No. 97, issued under the Improvement Act of 1911, dated the third day of November, 1913, and

WHEREAS, the holder of said bond has demanded in writing the undersigned that he, as City Treasurer of the City of Oakland, County of Alameda, State of California, proceed to advertise and sell the lot or piece of land in said bond mentioned and hereinafter described, which bond was issued for street work done on Thirty-fifth Avenue, in said City of Oakland, as shown on assessment diagram on file in this office and authorized by Resolution of Intention No. 5205 N. S. of the Council of the City of Oakland, passed April 11th, 1913, and

WHEREAS, the unpaid remainder of the principal of said bond and of the interest thereon, by reason of said default, are due, payable and delinquent.

NOW, THEREFORE, notice is hereby given that unless the amount of said bond and the interest due thereon, together with the cost of publication of this notice, are paid, I, the undersigned, as City Treasurer of the said City of Oakland, will on THURSDAY, the 23RD day of MARCH, 1916, between the hours of 10 A. M. and 12 M., of said day, sell at Public Auction in my office in the City Hall in said City of Oakland, to the bidder offering to pay the amount due on the bond with costs for the least portion of the said lot or piece of land mentioned in said bond and described as follows, to-wit: Situate in the said City of Oakland, and known as Lot 123, in Redwood Park.

The name of the owner of said lot or piece of land is "Unknown."

The amount due on said bond for principal is \$27.31, and for interest thereon, up to said date of sale, is \$10.85.

This notice shall be published twice in the Oakland Tribune, a newspaper of general circulation, published in said City of Oakland, which said newspaper is hereby designated by the undersigned as the newspaper in which this notice shall be published.

F. A. COOLEY,
As City Treasurer of the City of Oakland, Cal.

Dated: March 7th, 1916.

MINERS MAY FIGHT OVER RICH CLAIMS

SAN BERNARDINO, Cal., March 7.—Threats of a clash of armed forces on the possession of gold mining claims on the San Bernardino county desert five miles northeast of Danby, Cal., a station on the Aichison, Topeka & Santa Fe Railway, were brought here last night by Douglas Shaw, one of the persons owning property involved in the alleged controversy.

Shaw recalled that a party of Los Angeles men who own claims adjoining those in which he and other San Bernardino men were interested, took possession of the cabin of the latter group last night. Shaw says he and his associates forced them to leave at the point of guns.

Shaw left the desert last night and came here to get men to reinforce Donald Brown and Thomas Wilson, whom he left on the claim. He stated that Wayland Shaw, John Mesplay and Frank Kier, all residents of San Bernardino, would go to the desert tonight to join Brown and Wilson. He claimed their property was being sought because it is a source of water supply, as well as being valuable for mining.

He said the Los Angeles was planning to establish a townsite. Ellis Millery, C. M. Jay, W. P. Reynolds and W. E. Johnson were in the Los Angeles, Shaw said.

POLICEMAN REWARDED.
Sergeant Herbert J. Thornbury, who was wounded in the shoulder when he captured Jack Eggemann, the author and poet who attempted to loot the Barney Jacobs jewelry store window on the evening of February 2, was today rewarded by the board of police and fire commissioners voting him \$133 for his bravery. Thornbury has entirely recovered from his injuries.

Alice Gentle to Sing at Auditorium

With Miss Alice Gentle, the famous prima donna, in the stellar role, next Sunday's "pop" symphony concert at the Oakland Municipal Auditorium will make musical history in Oakland. It will be the first time in the west that a singer of Miss Gentle's ability has been heard at a "pop" concert and Conductor Paul Steinhardt is being congratulated upon bringing her to Oakland for his concert series. Miss Gentle is noted as one of the greatest singers on the stage today and music lovers throughout the bay cities are expected to throng the auditorium. She will appear in the title role of "Carmen," her greatest creation, and will be heard in a number of her greatest songs. As one of the great contralto singers of the present day a tremendous reception is predicted for her.

Miss Virginia Pierce, late prima donna of the Lombardi Grand Opera Company, will be heard in the role of Michaela from "Carmen." She is a soprano singer of great power and has sung the leading roles in "Lucia," "Tigolito," "Faust," "The Traveller," and other famous operas and has a host of admirers in the bay cities. She was studying in Italy when the war broke out and has sung in the opera houses of the principal Italian cities.

In addition to these two famous singers, a big orchestral program will be given. The demand for seats is very heavy and a block of 500 have been reserved and placed on sale in Oakland, Berkeley and Alameda.

MEETING POSTPONED.
Owing to the illness of Mrs. Alice McKay Kelly, who was to have been the speaker, the California Writers' Club has postponed its meeting from this evening to next Thursday evening at 8 o'clock in the northwest room of Hotel Oakland. On that occasion Mrs. Kelly will give her talk on "Educating the Ignorantes," using her own experiences as United States representative in the educational department of the Philippine Islands.

Bluebird Bureau

Department of Good-Fellowship

Every day children come to the Blue Bird Bureau asking for clothing.

All children like to look neat. It makes them feel happy and gives them new confidence to appear as well as their schoolmates. They do not like to go to school unless they look presentable.

For every child out of school the city loses a state and county appropriation of 20 cents a day.

If you have any clothes which your own children have outgrown, phone Oakland 7285 and someone will call for them.

Adults' clothing will be accepted at same number.

For all other information pertaining to the work of this bureau ring up Lakeside 6860.

Through the courtesy of one of the city's leading playhouses a group of little children saw free last night a show for which many people were unable to get tickets, so great was the demand. These little folk occupied an upper box in this theater and with open mouths and staring eyes they sat spellbound during the entire evening.

Ordinarily the lives of these little ones are, to say the least, uneventful, for they were taken direct from a private orphanage where the daily routine is necessarily of the simplest. After the manager of the theater, who is a valued member of the Good Fellow Club, had forwarded the tickets to this bureau and other Good Fellow, with a magnificent touring car, was notified and he called for the children just after their supper last night. Seven little ones—the same little ones who had asked for dolls a few days ago, were bundled early in warm furs and wraps and whisked away to Oakland. The Good Fellow who had the children in his care is a magnificent specimen of a real MAN. He has a beard that is streaked with gray, yet his heart is that of a boy. He is massive of build, yet gentle of hand. He was one of the band of children. We wonder if any one in that enormous audience last night enjoyed the performance as much as that little group which sat in the upstairs box. We doubt it!

These youngsters will remember last night as long as they live, for they became a part of the big, busy world, which most of the time rushes past them rudely. It is of such acts that the Blue Bird Bureau is proud.

Another 2-year-old has been made happy. He wanted a guinea badly, to go to town in with his mother, or to the park with his sister. So he whispered his wish to the Blue Bird Bureau and like the children in fairyland, he had his wish come true in a remarkably short time and in a manner which is to him perfectly baffling. And he is very happy now, thanks to his fairy Good Fellow.

The Blue Bird Bureau has received quite a number of buggies for babies and mattresses and beds for adults, but so far cribs for little ones have failed to make an appearance. And as it happens that one is needed for a youngster grown too big for a cradle, we wish to call the Good Fel-

lows' attention to his want. He is very eager for a promotion and would, to show his gratefulness, gladly entertain a Good Fellow with his singing and kicking and an overabundance of smiles, when given the opportunity to change the cradle for a crib.

Next Monday, being washday, the woman who asked us to procure a "rosy" instead of "blue," for no sooner had we placed her request in our columns than a Good Fellow rang up and told us that she possessed a good wringer, that, because she sent her washing to a laundry, was lying idle in her basement and might as well be put to work and made useful for the benefit of this busy woman to whom every minute of her waking hours—which are many—bring urgent duties calling for attention.

The little boy with the sparkling black eyes and the pleasant smiles, whose one leg was cut off just below the knee by a train, five months ago, will be very much disappointed if he is not presented with a tricycle. At present he walks on crutches. Getting about on his own is a difficult and slow work for such a child, so his mother is afraid to let him play outdoors, for fear he will be run over again by train, automobile or wagon, and she has very little time to watch him. If he had a tricycle he could go about so much quicker and be so much safer. This enforced indoor life does not agree with him. He needs the fresh air and sunshine and this gay-hearted, healthy boy is actually beginning to look pale. When you mention the word "tricycle" to him his spirits bubble over with anticipation. Wouldn't it be terrible to have to dis-appoint the little mischief?

If any of the Good Fellows knows of a child of school age who, for some reason or other, is unable to keep up with the average child in his or her class, please do not hesitate to inform the Blue Bird Bureau about it. We have members of the club on our list who are anxious to obtain their leisure hours to instruction in grammar, school branches to such backward children. When a child is backward it does not necessarily mean that he is stupid. There may be physical reasons or perhaps it's lack of opportunity to enter the school as early an age as the average child enters is the cause of his being slow, and it is no disgrace to be assisted with studies outside of school hours.

Now it looks as if we are going to have some sunny days and there will be a number of little cripples and convalescents anxious for a breath of country air. Such a number of youngsters have already enjoyed happy, glorious hours in several Good Fellow cars skimming over country roads and riding all about town that we may call this part of our work a real success. And the Good Fellows never fail to tell us that they, too, as well as the children, enjoyed the rides. Sometimes real friendships between the entertainers and entertained spring up. One Good Fellow was so captivated by the ways and gay chatter of a 4-year-old that she took her home and persuaded her to stay for two days and two nights. And when the little girl arrived home she became the heroine of her block, for hadn't she been out on a "ride" with a Good Fellow? It did appear like that to the rich imaginations of the other youngsters.

Pickpockets Ply Their Craft on Ferryboats

Pickpockets operated on street cars and on the Southern Pacific boats of the harbor route yesterday, according to reports made to the police. O. G. Scott, of 561 Fourth street, reported that his pocket had been picked while he was on a ferryboat and a gold watch valued at \$25 stolen. Paul Roush, of 2322 Camp street, lost a purse containing \$8.60 through the activities of a pickpocket on a street car.

Minor burglaries reported to the police included: Abe Kingo, Metropolitan hotel, clothes and jewelry stolen; Carlo Frinipe, 2324 Alameda street, a wireless machine; J. F. McArdu, 928 Madison street, jewelry and money; Mrs. A. R. Kolls, Tenth and Madison streets, jewelry and coin; E. J. Hughes, 5207 Desmond street, coin and jewelry, \$75.

ASKS FOR PROBATION.

Attorney A. L. Cunha made a motion before Superior Judge Frank B. Ogden today to have the case of Mrs. Cherry referred to the probation office for investigation. Mrs. Cherry was found guilty by a jury last week in Judge Ogden's court of working the "badger" game with her husband, William L. Cherry. Cherry is now serving 12 years in Folsom prison for beating Herman Hirsch out of \$79.

STENCE MUST SERVE TIME.

Henry Stence was sentenced to serve two years in the county jail for firing two shots at Patrolman D. E. Gillette on January 10, when the officer attempted to place him under arrest. Stence had accused G. Earl Wado, chief deputy county clerk and his wife. He was frightened away by the sudden approach of Gillette, who gave chase. Stence turned and fired two shots. Both went wide of their mark.

VICTIM OF AUTO.

Louis Blandino, a barber, was run down this morning at Fourteenth and Broadway by a machine driven by A. Diagne. The injured man was taken to the emergency hospital where he was treated for a concussion of the right foot and abrasions of the left elbow. He was able to be removed to his home later in the day.

HELD TO ANSWER.

Charles Wagner, of West Berkeley, was held to answer to the Superior Court by Police Judge Mortimer Smith today on a charge of burglary. Bail was fixed at \$200. Wagner is accused of having stolen a magnet and some batteries from a launch owned by G. D. Graves. His defense is that he purchased the stolen articles from a strange man at the foot of Webster street.

COUNCIL ASKED FOR RAIL PERMIT

Baccus Wants Time to Review Proposed Key Route Extension.

Permission to make the necessary connections with a private right-of-way extending the twenty-second street line of the Key Route service from the Key Route Inn across Broadway through private property to Webster street to connect with the Grand Avenue line and provide for an extension of the Piedmont territory was asked of the city council today by W. R. Alberger, vice-president and general manager for the S. F. O. T. R. R.

Commissioner Baccus stated that he was opposed to granting the permit unless the transportation company would dedicate an 89-foot street through the blocks between Broadway and Webster, providing thus for the extension of Grand Avenue west to Broadway.

Baccus asked that the application be referred to him and that he would present recommendations as to the conditions under which the city should be willing to grant the permit. He said that nothing less than the dedication of the street should be accepted as a return for this permission.

ANOTHER WAY OUT.

When it was suggested that if a street was dedicated and the company would grant the permit, this privilege would have to be accepted in the form of a franchise, Baccus stated that there were ways of getting around this. The company has repeatedly stated that no franchise would be accepted under the present Oakland city charter. Baccus suggested that the permit to make the rail connections with the private right-of-way marking extension from Broadway to Webster street be granted, but that previously the company should place in escrow a deed dedicating an 89-foot street to the public in Twenty-second street.

The San Francisco-Oakland Terminals would then be in a position to run the twenty-second street Key service out of Grand Avenue and the big real-estate district above Lake Merritt and the south Piedmont district. It is possible the same difficulty about trains that has been noticed in Twenty-second street here also. The company, however, is still running its Key service trains in Twenty-second street.

This line would also connect with the right of way of the company for a direct Key service line to San Jose, for which surveys have already been made.

UTILITIES DISTRICT PLAN.

Approval of the plan to call an election for the creation of a public utilities district of the east bay cities was signified by the city council today in a letter from Joseph B. Deane, secretary of the Chamber of Commerce. The letter follows:

"After very careful consideration of the question of calling an election for a public utility district including Piedmont, Berkeley, Alameda and Oakland, the board of directors has instructed the secretary to notify the council of its unanimous endorsement of the resolution referring to this subject already presented by the East Bay Public Utilities District committee, and to express the wish that you will give the subject favorable consideration."

ALLEGED 'FENCE' PLEADS.

Samuel Lichtenstein, Oakland junk dealer appeared in Judge J. B. Ogden's court this morning and pleaded not guilty to the charge of receiving stolen goods from John Barry, alleged thief leader of a band of bay pirates. It is alleged by the police that Lichtenstein has been the "fence" for the gang of thieves that has been operating along the estuary and western waterfront stealing large quantities of copper and brass. Judge Ogden set his trial for April 10.

DIES OF APOPLEXY.

J. T. Gardiner, a painter residing at 1116 Jefferson street, died in the emergency hospital last evening, following a stroke of apoplexy. He was a brother of John Gardiner, one of the jailers in the city prison. Gardiner fell to the sidewalk at Eleventh street and Broadway at 8 o'clock last evening. He had been summoned a passing automobile and had him removed to the emergency hospital, where he died shortly after. Funeral arrangements will be made today.

EAST END DANCE POSTPONED.

Owing to the athletic meet to take place in the Municipal Auditorium this evening the East End Civic Center has postponed its neighborhood dance from tonight until next Thursday evening.

Cano, Trade Envoy, Is Near to Death

C. G. Cano, Oakland's representative in South America in the campaign being waged by the Chamber of Commerce for South American factory trade, is near to death in Havana, according to news received by the chamber officials today. Cano was stricken by typhus while on his trip through Central America and was taken to the hospital on his arrival in Cuba. Few details of his illness have arrived and the chamber officials are anxious.

Cano left several months ago under the direction of the chamber and had gained lively results in Central America when overtaken by illness.

Switchman Mangled Under Railway Train

His foot wedged into a frog in the track, Fred Mitchell, a brakeman of Berkeley, was held helpless yesterday at Pittsburg while a string of freight cars bore down on him. His body was literally ground to pieces.

Mitchell, who was 28 years old, was switching cars in the Southern Pacific yards. He had left his train, an east-bound freight, under Conductor J. F. Coffey, and, in stepping over the tracks, caught his foot. A string of freight cars being shunted to a siding, bore down on him. The man's body was removed to the Pittsburg branch morgue. A widow, in Oakland, survives him. An investigation into the accident is being made by a railroad accident board.

Extravagance isn't in good coffee; it's in wasting sugar and cream and time on poor coffee!

Poor coffee—extravagant at any price. None of the full, rich flavor in it—it isn't worth packing in such airtight tins as seal-in all the fine flavor of Schilling's Best.

These tins have made fine coffee economical.

IF IT'S HERE IT'S NEW and smart; if it's new and smart it's sure to be in this store.

HERE we have a new covert coat with the new amplified sweep of the skirt—full lined, with convertible collar—full upper sleeve.

It's a real diversion for the afternoon or visit to the country club—A coat worthy of more praise than we give it—A companion for the very finest costumes.

Golden State Butter

is exceptionally delicious because it is exceptionally good. It was awarded the Grand Prize at the Panama-Pacific Exposition, after an exhaustive test for keeping quality, appearance, taste, cleanliness, as well as food value.

Golden State Butter is pasteurized. Pasteurization insures wholesomeness and keeping quality.

When you order butter, ask your grocer for the brand the highest authority proclaims the best—Golden State.
